CORRESPONDENCE

The general address for all correspondence is: State College at Bridgewater, Bridgewater, Massachusetts 02324. In order to avoid delay, correspondents are requested to note the following directions.

Requests for Day Session catalogues (undergraduate) should be addressed to the Registrar. Requests for catalogues of the Graduate School should be sent to the Office of the Graduate School. Requests for brochures of the Division of Continuing Studies should be addressed to the Office of the Division of Continuing Studies.

Inquiries concerning requirements for concentrations and majors in a given department should be addressed to the chairman of that department.

Requests for transcripts should be sent as follows:

Students who hold a bachelor's and/or a master's degree from this College should write to the Registrar.

Students who have not completed their bachelor's degree should write to the Registrar for a transcript of courses taken through the day college, and to the Director of Continuing Studies for a transcript of courses taken through the Division of Continuing Studies.

Students who have earned their baccalaureate but who have not completed their master's degree, should write to the Director of Continuing Studies for a transcript of courses taken in the Division of Continuing Studies and to the Registrar for transcripts of courses taken in the Day Session.

Inquiries concerning employment, health services, housing, loans, and scholarships, should be addressed to the Director of Student Personnel.

Inquiries concerning the Summer Session at Bridgewater State College should be addressed to the Director of the Summer Session.

Inquiries concerning the Summer Session at Hyannis should be addressed to the Director of the Hyannis Summer Session.

Inquiries relative to admission to the Graduate School should be addressed to the Dean of the Graduate School.

Inquiries concerning placement and student teaching should be addressed to the Director of Student Teaching.

Inquiries concerning Continuing Studies should be addressed to the Director of Continuing Studies.

Inquiries concerning alumni affairs should be addressed to the Executive Secretary of the Alumni Association.

Inquiries concerning academic employment should be addressed to the chairman of the appropriate department.

Inquiries concerning non-academic employment should be addressed to the Assistant to the President.

Inquiries concerning teacher certification should be addressed to the Director of Teacher Certification, Department of Education, 182 Tremont Street, Boston, Massachusetts.

Matters not covered above, and correspondence bearing upon the general interests of the College, should be addressed to the President.

CALENDARS

DAY SESSION

Calendars for the fall and spring terms are obtainable at the Office of the Graduate School, Room 211, Conant Science Building. Graduate students registering for courses in the Day Session, during the spring and fall terms, should obtain this calendar.

DIVISION OF CONTINUING STUDIES

A new Bulletin is prepared each term (fall, spring, and summer) and is obtainable at the Office of the Division of Continuing Studies, Boyden Hall. Graduate students registering for courses offered by the Division during the fall, spring, and summer terms, should obtain this calendar.

GRADUATE SCHOOL

The following calendar lists important dates not included in the above calendars. All graduate students should note critical dates.

CALENDAR 1967 - 1968

FALL TERM

1967 - 1968

Dates are inclusive

10	October	Last day for filing <i>Request to take the Comprehensive Examination</i> in November
28	October	Graduate Record Examinations (Lecture Hall, Conant Science Building from 8:45 A.M. to 11:45 A.M.)
18	November	Comprehensive Examinations (Lecture Hall, Conant Science Building from 9:00 A.M. to 12:00 A.M.)
9	December	Graduate Record Examinations (Lecture Hall, Conant Science Building from 8:45 A.M. to 11:45 A.M.)

SPRING TERM

1968

Dates are inclusive

5	January	Last day for filing <i>Application for Degree</i> for students who expect to receive the diploma in February
1	March	Last day for filing <i>Application for Degree</i> for June Commencement
5	March	Last day for filing <i>Request to take the Comprehensive Examination</i> in April
20	April	Comprehensive Examinations (Lecture Hall, Conant Science Building)

27	April	Building from 9:00 A.M. to 12:00 A.M.) Graduate Record Examinations (Lecture Hall, Conant Science Building from 8:45 A.M. to 11:45 A.M.)
9	June	Commencement

SUMMER TERM
1968

Dates are inclusive

11	July	Last day for filing <i>Request to take the Comprehensive Examination in July</i>
12	July	Last day for filing <i>Application for Degree</i> for students who expect to receive the diploma in August
13	July	Graduate Record Examinations (Lecture Hall, Conant Science Building from 8:45 A.M. to 11:45 A.M.)
20	July	Comprehensive Examinations (Lecture Hall, Conant Science Building from 9:00 A.M. to 12:00 A.M.)

BOARD OF TRUSTEES OF MASSACHUSETTS STATE COLLEGES

President Adrian Rondileau, Ph.D.
Dean Lee Francis Harrington, M.Ed.

FACULTY

- Barbara Phillips Aalto, A.B. (Bates College), M.A. (Boston University), Ph.D. (University of Minnesota), Visiting Lecturer in Educational Psychology
- Murray Abramson, B.A. (Brooklyn College), M.A. (Columbia University), M.A. (Syracuse University), Assistant Professor of Mathematics
- Charles Waldron Adams, B.A. (Harvard University), M.S. in L.S. (Simmons College), Visiting Lecturer in Library Science
- Robert Charles Arruda, A.B. (Brown University), B.S. (Georgetown University), M.A.T. (Brown University), Assistant Professor of Romance Languages and Chairman of the Department of Modern Foreign Languages
- Martin Joseph Badoian, A.B. (Brown University), M.A. (American International College), Visiting Lecturer in Mathematics
- Robert Jackson Barnett, A.B. (Juniata College), M.A. (Pennsylvania State College), Associate Professor of Speech and Chairman of the Department of Speech and Drama
- Mabell Susie Bates, B.S. in L.S. (Simmons College), M.Ed. (Massachusetts State College at Bridgewater), Cataloguer
- Ralph Samuel Bates, A.B., A.M. (University of Rochester), A.M., Ph.D. (Harvard University), Professor of History
- Warren Benson, A.B. (Boston University), LL.B. (Suffolk University), Visiting Lecturer in Guidance
- Robert Joseph Bent, B.S. (Massachusetts State College at Boston), Ed.M. (Massachusetts State College at Bridgewater), M.A. (San Diego State College), Assistant Professor of Mathematics
- Raymond Lorenzo Blanchard, B.S. (New Bedford Institute of Technology), Ed.M. (Massachusetts State College at Bridgewater), M.S. (Rensselaer Polytechnic Institute), Associate Professor of Physics
- Beatrice Irene Bouchard, B.S. (Catholic Teachers College of Providence), M.A. (Boston College), M.S. (Simmons College), Associate Professor of Library Science and Chairman of the Department of Library Science
- Robert Francis Boutilier, A.B., M.A., Ph.D. (Boston University), Assistant Professor of Earth Science

- David Brannigan, B.S. (Suffolk University), M.S. (University of New Hampshire), Instructor in Zoology
- Margaret Rose Brayton, A.B. (Stanford University), M.A. (Middlebury College), Ed.D. (Boston University), Visiting Lecturer in Educational Psychology
- James Robert Brennan, B.S., M.S. (Virginia Polytechnic Institute), Ph.D. (University of Maryland), Associate Professor of Botany
- Robert Allen Briggs, B.A., M.A. (Boston University), Assistant Professor of Modern Languages
- Richard Frank Calusdian, B.A. (Harvard University), M.S. (University of New Hampshire), Ph.D. (Boston University), Associate Professor of Physics and Chairman of the Department of Physics
- Charles Edwin Carr, A.B., M.A. (Boston College), Instructor in Mathematics
- William Joseph Casey, A.B. (Holy Cross), M. Ed. (Boston University), Visiting Lecturer in Guidance
- John Noel Chandler, A.M. (University of Chicago), Assistant Professor of History
- Joseph Chase, Ph.B. (Brown University), Visiting Lecturer in Oceanography
- Barbara Anne Chellis, B.S. (Simmons College), M.A., Ph.D. (Brandeis University), Associate Professor of English
- Joseph Biggi Chiccarelli, B.S., M.A. (Boston College), Associate Professor of Mathematics and Chairman of the Department of Mathematics
- Willmon Blackmar Chipman, A.B. (Harvard University), A.M. (Dartmouth College), Ph.D. (University of Illinois), Associate Professor of Chemistry and Chairman of the Department of Chemistry
- Angelo Alexander Cialdea, B.S., M.Ed. (Boston University), Visiting Lecturer in Educational Psychology
- Elizabeth Fahey Cirino, B.S. (Massachusetts State College at Bridgewater), A.M., Ph.D. (Boston University), Professor of Zoology

- Stanley Luther Clement, B.S. (Colby College), M.A. (University of Maine), Ed.D. (Boston University), Professor of Education, Chairman of the Department of Education and Director of the Division of Professional Education
- Guy Chandler Clifford, B.S. (Tufts College), M.A. (University of Massachusetts), Instructor in History
- Ann Oldham Coakley, B.S., Ed.M. (Boston University), Instructor in Physical Education for Women
- William Roswell Cole, B.A. (University of Massachusetts), A.M. (Boston University), Associate Professor of History
- Robert Anthony Coler, B.A. (Champlain College), M.A. (Albany State College for Teachers), Ph.D. (Syracuse University), Assistant Professor of Zoology
- Joseph John Corkery, A.B., A.M. (Boston College), Associate Professor of Philosophy
- Anthony Charles Cotugno, B.S. (Northeastern University), M.Ed. (Massachusetts State College at Boston), Instructor in Modern Foreign Languages
- Helen Bogle Crawshaw, B.A. (Radcliffe College), M.S. in L.S. (Simmons College), Visiting Lecturer in Library Science
- Henry Owen Daley, Jr., B.S. (Massachusetts State College at Bridgewater), Ph.D. (Boston College), Associate Professor of Chemistry
- Robert Alphonse Daniel, A.B. (Howard University), M.A. (State University of Iowa), Ed.D. (Pennsylvania State University), Associate Professor of Art
- Katherine Sheila Dannemann, B.A. (University of Rhode Island), M.A. (Michigan State University), Instructor in English
- Robert Dale Dawley, B.A. (St. Lawrence University), M.A. (Middlebury College), Instructor in Modern Foreign Languages
- John Peter Deasy, A.B. (Providence College), Ed.M., Ed.D. (Boston University), Associate Professor of Education
- David Paul Deep, B.S. (University of Bridgeport), M.S. (Springfield College), Instructor of Physical Education for Men and Dean of Men
- Anthony Vincent DeLeo, A.B., M.A. (Boston University), M.Ed. (Massachusetts State College at Bridgewater), Assistant Professor of Education

- Harold Francis DeLisle, B.S. (Massachusetts State College at Bridgewater), M.A. (Boston College), Assistant Professor of English
- Joseph DeRocco, A.B., M.A. (Columbia University), Associate Professor of English
- Armand Eugene DeSautels, B.L. (Laval University), B.A. (University of Rochester), M.A. (Assumption College), Instructor in Modern Foreign Languages
- Robert John Dillman, B.S. (State University Teachers College at New Paltz), M.S. (Pennsylvania State University), Instructor in Earth Science
- Vincent James DiNardo, B.S. (Massachusetts State College at Bridgewater), Ed.M., Ed.D. (Boston University), Professor of Education and Dean of Undergraduate Studies
- John Donato DiSanto, A.B. (Providence College), M.Ed. (Boston University), Visiting Lecturer in Education
- Gerald Joseph Doiron, B.A. (University of Maine), M.A. (University of Rhode Island), Assistant Professor of History
- Philip Ryan Dooley, A.B. (St. Anselm's College), Ed.M. (Tufts University), Associate Professor of Guidance and Director of Guidance
- Lawrence Doyle, A.B., M.Ed., Ed.D. (Boston University), Visiting Lecturer in Educational Psychology
- Karin Van Lissel Dubin, A.B. (Parsons College), M.A. (University of Chicago), M.A. (University of Michigan), Ph.D. (Columbia University), Assistant Professor of Speech and Drama
- Lee Anne Firestone Dunne, B.S. (Northwestern University), M.A. (Hunter College), Instructor in Speech
- Martha Catherine Engler, Visiting Lecturer in Storytelling
- Warren David Englund, B.A. (Simpson College), M.S. (Drake University), Associate Professor of Philosophy
- Charles Fanning, Jr., B.A., M.A.T. (Harvard University), Instructor in English
- Henry Joseph Fanning, Jr., B.S. (Boston College), Ed.M. (Massachusetts State College at Bridgewater), Assistant Professor of Education and Director of Admissions (Undergraduate)

Diane Gertrude Farrell, B.A. (Regis College), M.S. in L.S. (Columbia University), Visiting Lecturer in Library Science

Margaret Eleanor Farrell, B.S. (University of Massachusetts), Ed.M. (Massachusetts State College at Bridgewater), Instructor in Education

Ralph Sanborn Fellows, A.B. (Tufts University), M.A., Ph.D. (Boston University), Assistant Professor of Earth Science

Dorothy Rose Ferry, Mus.B., M.Mus.Ed. (Boston University), Assistant Professor of Music

Jordan Dominic Fiore, B.S. (Massachusetts State College at Bridgewater), A.M., Ph.D. (Boston University), Professor of History, Chairman of the Department of History and Political Science, Director of the Division of Social Sciences, and Director of the Division of the Social Sciences

William Fisher, B.S., M.A. (New York University), Ed.D. (Boston University), Visiting Lecturer in Education

Dennis Allen Flynn, B.A., M.A. (Columbia University), Instructor in English

Robert Fox, A.B. (Harvard University), M.A., Ed.D. (Boston University), M.S. (Trinity College), Visiting Lecturer in Education

James Frank Francis, A.B. (Boston University), M.Ed., D.Ed. (Boston University), Assistant Professor of Education

Robert Kenneth Friedman, A.B., M.A. (Brooklyn College), Ph.D. (Columbia University), Assistant Professor of Speech and Drama

Ira Ellsworth Furlong, A.B., M.A., Ph.D. (Boston University), Associate Professor of Earth Science

Marilyn Hayden Furlong, B.S. (Massachusetts State College at Bridgewater), M.A. (Clark University), Assistant Professor of Geography

Sabit Gabay, B.A. (Galatasaray College French College in Istanbul), B.S., Ph.G. (Istanbul University), M.S. (Texas A & M College), Ph.D. (University of Madrid), Visiting Lecturer in Zoology

Ruth Mary Gamson, B.S. Ed.M. (Massachusetts State College at Bridgewater), Assistant Professor of Education

Vincent Harold Gannon, B.S. (Boston University), M.A.T. (Harvard University), Assistant Professor of Music

- Charles William Gaughan, A.B. (Harvard University), M.Ed. (Boston University), M.S.S.W. (Tufts University), Visiting Lecturer in Sociology

water), M.Ed. (Boston University), Assistant Professor of
Education

Shirley Ann Wood, B.S., Ed.M. (Massachusetts State College at
Bridgewater), Instructor in Art

Vincent James Worden, B.S. (Massachusetts State College at Worces-
ter), Ed.M. (Loyola College), Assistant Professor of Ed-
ucation

Joseph Bernard Yokelson, B.A. (Brooklyn College), M.A., Ph.D.
(Brown University), Assistant Professor of English

Addenda

Thomas James Bracken, B.A. (Northwestern University), M.A. (San
Francisco State College), Instructor in English

Karen Friedberg Figdor, B.A. (University of Pennsylvania), M.A.
(Boston College), Instructor in English

GENERAL INFORMATION

The College is located in the town of Bridgewater, a pleasant, residential community located three miles from an expressway leading to major highways to New York, Boston, and Cape Cod. Motoring time to Boston is approximately 45 minutes; to New York, four and one-half hours; and to Cape Cod, one hour. Bus service to Boston is available.

ACADEMIC STANDING OF THE COLLEGE

The College is accredited by the National Council for Accreditation of Teacher Education and holds membership in the New England Association of Colleges and Secondary Schools.

ADMINISTRATIVE ORGANIZATION OF PROGRAMS

The College conducts a day session for full-time undergraduates who have been matriculated for the degree of Bachelor of Arts, or for the degree of Bachelor of Science in Education, as well as afternoon and evening programs for full and part-time undergraduate and graduate students. The latter programs are for students who wish to take courses for self improvement or certification, or for those who have been matriculated for one of the following degrees: Bachelor of Arts, Bachelor of Science in Education, or Master of Education.

Information relative to undergraduate degree programs is obtained from the Dean of Undergraduate Studies.

Information relative to graduate degree programs is obtained from the Dean of the Graduate School.

All courses offered afternoons, evenings, and Saturday mornings are scheduled through the Division of Continuing Studies. Information and guidance relative to degree programs is not given through this Division.

ACADEMIC FACILITIES

Boyden Hall is located on the upper campus, between School and Grove Streets. Named for Albert Gardner Boyden, the third principal of Bridgewater State Normal School and Arthur Clark Boyden, the first President of Bridgewater State Teachers College, it contains administrative and business offices, the Horace Mann Auditorium, classrooms, and offices for faculty members.

Burnell School, named after its second Principal, Martha Mae Burnell, is located on Grove Street, west of Boyden Hall. The school conducts classes from kindergarten through grade four. Students

who are matriculated for the degree of Bachelor of Science in Education spend eight weeks observing and teaching classes at the Burnell School.

Conant Science Building is located on Park Avenue, on the lower campus. It is named for Marshall Conant, the second Principal of Bridgewater State Normal School, who was instrumental in expanding the scientific studies of this institution. The building contains the Departments of Biological Sciences, Chemistry, Earth Sciences, Mathematics, Physics and Instructional Media.

Kelly Gymnasium is located on Park Avenue, on the lower campus. Named for Dr. John Joseph Kelly, who served as the third President of the College, it contains two gymnasia, an Olympic pool and other facilities for The Departments of Physical Education for Men and Women.

Maxwell Library is located east of Boyden Hall on School Street. The library was named for Dr. Clement Carpenter Maxwell, the fourth President of the College. The building which serves as a temporary library pending construction of a new one, consists of a lower floor, containing the stacks and library offices; the main reading room; the Julia Carter room used for meetings; and an upper floor, consisting of two classrooms for courses in library science; and a mezzanine containing student carrels. The library contains 50,000 volumes, 429 journals, 2000 pamphlets, and 14 newspapers.

Stevens Greenhouse and Boyden Botanical Gardens are located on Park Avenue, on the lower campus between Pope Hall and the Conant Science building. The facilities, which are managed by a horticulturist, are used by the Department of Biological Sciences for instruction and research.

STUDENT HOUSING

At present, dormitory housing is not available for graduate students but there are a number of approved off-campus houses available for students who wish to pursue a full-time graduate program. A list of available housing may be obtained by writing the Dean of Students, Dr. Ellen M. Shea.

SCHOLARSHIPS AND FELLOWSHIPS

There are, at present, no scholarships or fellowships for graduate students.

NATIONAL DEFENSE STUDENT LOANS

Eligibility

Matriculated graduate students, taking at least six semester hours of work per semester, are eligible to apply for N.D.S.L.

Students applying for such loans must present a letter to the Financial Aid Officer from the Dean of the Graduate School, attesting to their matriculated status; and proof of registration for the required number of hours, from the Director of Continuing Studies or Academic Dean's Office.

Loan Amounts

Graduate students (with matriculated status) may borrow up to a maximum of two thousand, five-hundred (\$2,500.00) per year; the total amount borrowed for all degree programs, both undergraduate and graduate, may not exceed ten thousand dollars (\$10,000.00).

The repayment period and interest begin nine months after a student has completed his program. Total payment is due 10 years and nine months after a student has completed his degree program.

Interest Rate

Interest is at the rate of three percent (3%) per year on the unpaid balance.

Special Compensation for Teachers

As much as one-half of the loan may be forgiven if the borrower becomes a full-time teacher at any level. The amount of forgiveness is ten percent (10%) of the amount borrowed for each year of teaching, up to a maximum of five years.

If the borrower teaches in eligible schools in low-income areas, the rate of forgiveness may be fifteen percent (15%) per year.

Deferment of Repayment

Repayments may be deferred up to three years if the borrower is serving in the Armed Forces, the Peace Corps, or Vista.

COUNSELING

Students may have problems and needs that require special forms of help or guidance. Among these are questions and concerns about their educational programs and academic achievement, housing, finances, health, social adjustment, part-time work, and placement.

To assist students in making adjustments, intelligent plans and wise decisions, the College has provided professional staff services in the major areas of student needs.

General

The faculty-student relationship is the center of college counseling, for faculty are best qualified to guide the student in his academic and professional growth. Each graduate student works closely with a faculty advisor from whom he receives help and guidance in the pursuit of his graduate program. Additional guidance by a professional counselor may be arranged through the office of the Dean of Students.

Religious

From its beginning, the State College at Bridgewater has been committed to a positive appreciation for the religious values in both our past history and contemporary culture. To emphasize the affirmative role of religion in the life and thought of this academic community, the Christian Fellowship, Menorah Club, and Newman Club have been formed to minister to those of the Protestant, Jewish, and Catholic faiths. A Christian Fellowship House and a Catholic Chapel and Center are located near the campus. Chaplains for Catholic and Protestant students have offices on campus and meet frequently with students for individual conferences, and with groups to provide religious counseling services.

HEALTH SERVICES

A hospital suite is located on the first floor of the S. Elizabeth Pope Hall (Tel. 697-6403). The services of a day and a night nurse are available to all students of the college. A doctor is on duty three days a week for four hours each day. The schedule of the medical staff is as follows:

Day Nurse	8:00 a.m. - 4:00 p.m.
Night Nurse	11:00 p.m. - 7:00 a.m.
College Physician	Mon., Wed., Fri. - 8:00 a.m. - 12:00 noon

STUDENT COOPERATIVE BOOKSTORE

The Student Cooperative Bookstore is located in the basement of Boyden Hall. The store has a drug and cosmetic rack, as well as supplies, souvenirs, textbooks, and leisure reading material. It offers a generous discount on most items.

The Bookstore is open from 8:15 A.M. to 4:00 P.M., Monday through Friday of each week during the fall and spring terms.

For the convenience of the Program of Continuing Studies students, the Bookstore will also be open whenever classes are being held during the fall, spring, and summer terms.

Books may be paid for by cash or check. All checks should be made payable to: Student Cooperative Bookstore, with the payee's home address appearing on the check. The store does not handle used books. Books may be returned to the store for the following reasons only:

- 1) Book is defective.
- 2) Course is dropped or cancelled before the third meeting of class (certified by the Director of Continuing Studies).

Returned books must be unmarked, in saleable condition, and accompanied by Bookstore sales receipt.

CHANGE OF NAME AND/OR ADDRESS

Students should notify the Office of the Graduate School immediately, by using the appropriate form, of any change in name or address. Failure to do this may cause unfortunate complications and delays which inconvenience students. Forms are available at the Office of the Graduate School.

MOTOR VEHICLE REGULATIONS

Students should secure a copy of the Division of Traffic Control's rules and regulations governing the use of motor vehicles. This may be obtained at the time of registration.

SELECTIVE SERVICE

Matriculated, full-time students, in good standing may be considered for deferment by their local Selective Service Boards. It is required that graduate students who are requesting deferment submit *Selective Service Form 103* to their local Boards. This form is executed by the Graduate School and constitutes the official statement of the student's status for consideration by his local board.

Inasmuch as the law, as well as the regulations, may be modified, it is suggested that the student keep in touch with his Local Board.

TEACHER CERTIFICATION

Teacher certification is the responsibility of the State Department of Education. All inquiries relative to certification should be addressed to the Director of the Division of Certification, State Department of Education, 182 Tremont Street, Boston, Massachusetts.

OTHER COLLEGE POLICIES

Information or additional information concerning such matters as smoking, bulletin boards, vending machines, messages and library should be obtained at the time of registration.

DIVISION OF CONTINUING STUDIES

The Division of Continuing Studies schedules courses for undergraduate, graduate, and audit credit as well as non-credit courses.

Most graduate students earn all of their credits in courses offered through the Division. It is essential, therefore, to obtain the Division's brochure prior to each term (fall, spring and summer). Information relative to course offerings, office hours, course registration, tuition and related matters will be found in this brochure.

The Office of the Division is located on the first floor of Boyden Hall.

THE GRADUATE SCHOOL

The Graduate School offers programs leading to the degree of Master of Education in Elementary Education, Guidance, Secondary Education (with a concentration in a subject field), School Administration, Special Education, and Reading.

Candidates for the master's degree are required to follow the regulations governing the degree program that were in effect at the time of their matriculation. Copies of all regulations are available at the Graduate Office. The effective dates for these programs are as follows:

REGULATIONS	INCLUSIVE DATES
1958	January 1, 1958 - December 30, 1962
1963	January 1, 1963 - June 30, 1965
1965	July 1, 1965 - January 16, 1966
January 1966	January 17, 1966 - August 30, 1966
September 1966	September 1, 1966 - August 31, 1967
September 1967	September 1, 1967 - August 31, 1968

The College reserves the right to modify its regulations at any time to conform to current graduate school practice. Failure to acquaint oneself fully with the regulations may cause complications for which the student must accept the responsibility.

OFFICE OF THE GRADUATE SCHOOL

The Office of the Graduate School, which is located in Room 211 of the Conant Science Building, is open from 9:00 a.m. to 5:00 p.m., Monday through Friday throughout the year.

Appointments with the Dean may be made by telephoning 697-6161 extension 301.

COURSES

Most courses taken in partial fulfillment of the requirements for the degree of Master of Education are scheduled by the Division of Continuing Studies. Sessions are conducted afternoons and evenings, Monday through Thursday and on Saturday mornings during the Fall and Spring Terms. Summer Session classes are also scheduled by the Division of Continuing Studies.

Full-time graduate students may take some of their course work in the Day School. Information about these courses may be obtained from the Dean of the Graduate School.

Matriculated graduate students and those who plan to apply for admission to the Graduate School should obtain the Bulletin of the Division of Continuing Studies which is published each term, and includes a schedule of courses for the term.

Students are limited to not more than six (6) semester hours of classwork during the summer session. This regulation may be modified if a student presents a letter at the time of registration from the Dean of the Graduate School giving him permission to take more than six semester hours of work. Teachers in service who are working toward their master's degrees, may not take more than six (6) semester hours of work in a given term.

PREREQUISITES

Students should make certain that they have taken the necessary prerequisites (if any) for each course. Failure to do so may result in loss of any credit earned in a course having prerequisites. There are also prerequisites for each degree program. Students who have completed any of these, prior to matriculation, should request and file the form "Petition for the Acceptance of Prerequisites Completed Prior to Matriculation". This form is available at the Graduate Office.

GENERAL REQUIREMENTS FOR THE DEGREE OF MASTER OF EDUCATION

Requirements for the degree shall be thirty-three semester hours, or thirty semester hours and a thesis, unless otherwise indicated.

Of the thirty-three semester hours of credit required, a maximum of six may be taken in approved off-campus courses or transferred from approved graduate schools, with approval of the advisor. Graduate credit earned prior to matriculation, in partial fulfillment of degree requirements, must be of grade B or better. The student is responsible for requesting that all transcripts of approved transfer courses be sent to the Dean of the Graduate School. All work for the degree, including transferred credits, must have been completed six years prior to the completion of the degree program.

While students are expected to make satisfactory progress in

their course work, the accumulation of credit hours is not regarded as the sole index of a student's progress or as a guarantee that he will be granted a degree. Each degree candidate must give evidence that he can integrate information and ideas from the various areas in which he is studying. The principal instrument of measuring this ability is the Comprehensive Examination.

This Examination may be written and/or oral, and will be based upon the area of concentration and related fields as indicated under Degree Requirements for the specific degree. Those who take the Comprehensive Examination will be notified of the results by mail.

A candidate who plans to take the Comprehensive Examination should file the form entitled, "Request to take the Comprehensive Examination." This form should be completed and filed in the Graduate Office not later than the deadline indicated in the Calendar of the Graduate School. This Examination may be taken when a candidate is in the last term of degree course work.

A candidate who fails a Comprehensive Examination shall be given only one further opportunity to take it. Candidates who take the Examination a second time must take it on the next regularly scheduled date.

Graduate course achievement will be rated A, B, C, F, W-P (Withdrawn-Passing), W-F (Withdrawn-Failing), Inc. (Incomplete), or Au (Audit). Graduate students who receive grades of C or below in more than two courses must withdraw from the program unless special permission to continue is recommended by the Graduate Committee and the Dean of the Graduate School. A minimum grade of B is required for all courses in the area of concentration.

COMMENCEMENT

Candidates for the master's degree who expect to fulfill all requirements for this degree in January, May, or August, should request the form, *Application for Degree* from the Graduate Office. This form should be completed and filed not later than the deadline indicated in the Calendar of the Graduate School.

Diplomas are awarded at the June Commencement and also during the months of February and August. Students completing degree requirements during the year should plan to attend Commencement and wear appropriate academic regalia.

ADMISSION

Application

Students seeking admission to graduate status at the Massachu-

setts State College at Bridgewater must hold a bachelor's degree from an institution of acceptable standing.

The College reserves the right to prescribe certain undergraduate courses, when, in the opinion of the Graduate Committee, a candidate is not sufficiently prepared in certain critical areas.

Each candidate for admission to a degree program is required to submit the following to the Dean of The Graduate School:

1. A formal application. Application forms may be obtained from the Graduate Office.
2. The results of the Aptitude Test of the Graduate Record Examination. The candidate must arrange to have his scores sent from the Educational Testing Service to the Dean of The Graduate School. Photostatic copies are not acceptable. Application forms and information relative to the GRE may be obtained from the Graduate Office.
3. An official transcript, bearing the seal of the college, of his undergraduate record. The transcript must be forwarded by the registrar of the college to the Dean. If a student has completed courses beyond the baccalaureat, transcripts of these should also be sent. Graduates of the Massachusetts State College at Bridgewater should request the College Registrar to send a copy of their undergraduate work to the Dean of The Graduate School.
4. Two recommendations which indicate an estimate of the candidate's ability to successfully pursue a graduate program. Only recommendations from members of a college faculty who have taught a candidate at the collegiate level are acceptable. Forms for recommendations are available at the Graduate Office.

An application is not complete unless all of the above five documents have been received by the Dean of The Graduate School.

Action By The Graduate Committee

The Graduate Committee meets monthly to consider completed applications.

The Committee, after examining each applicant's credentials, makes its recommendations to the Dean of the Graduate School. The Committee may recommend:

That the applicant be admitted as a candidate for a master's degree.

That the applicant be admitted as a special student and that he be

reconsidered for admission to candidacy for the degree after the satisfactory completion of fifteen semester hours of graduate work. A special student should file a form, *Petition for the Removal of Probationary Status*, when he has completed fifteen semester hours of graduate work with a grade of B or better in each course.

That the applicant be admitted conditionally pending the receipt of a baccalaureate degree. A college senior, who is admitted to the program on condition, should request his college to forward a complete transcript as soon as possible.

That the applicant not be admitted.

Six semester hours of appropriate course work, completed by the candidate prior to matriculation, may be allowed in partial fulfillment of the degree requirements. The successful completion of graduate courses before application shall not obligate the Graduate Committee to recommend the applicant for acceptance.

Action By The Dean Of The Graduate School

The Dean, after reviewing the recommendations of the Graduate Committee, makes the final decision, and notifies the applicant. At the same time the Dean sends the candidate's name to the chairman of the department in which he proposes to concentrate. The chairman assigns an advisor to the candidate.

It is important that the candidate telephone his advisor at the college and make an appointment for planning his program. Each candidate should have a copy of all required work for the degree. This copy should be signed by his advisor.

DEGREE PROGRAMS

The following programs leading to the degree of Master of Education have been developed by the appropriate faculties and the Graduate Curricula Committee. A student should not take any courses, other than those listed under Required Courses, without approval of his faculty advisor.

A graduate student who wishes to make any changes in his degree program, must petition the Graduate Committee through the Dean of the Graduate School. The student and his advisor will be apprised of the Committee's action.

MASTER OF EDUCATION IN ELEMENTARY EDUCATION

<u>Required Courses</u>	<u>S.H.</u>
ED 430 Principles & Practices of Guidance	3
ED 450 Elementary School Curriculum	3
ED 500 Research and Evaluation	3
ED 520 Psychological Foundations of Education	3
ED 554 Seminar in Elementary Education	3
ED 560 Principles & Practices of School Administration	3
ED 580 Philosophical Foundations of Education	3

21

Elective Courses

Twelve hours will be elected from Elementary Methods and Materials or from subject fields. These will be chosen, at the discretion of the advisor, in keeping with professional goals, experience, and courses already taken prior to matriculation.

Basic courses recommended for those candidates with little or no knowledge of elementary education include:

	<u>S.H.</u>
ED 330 Teaching Reading in the Elementary School	3
ED 340 Language Arts Methods and Materials in the Elementary School	3
ED 350 Elementary School Mathematics Methods and Materials	3
ED 460 Science Methods and Materials in the Elementary School	3
ED 470 Social Studies Methods and Materials in the Elementary School	3

0 - 12

Candidates with an undergraduate major in elementary education, or with several years of elementary experience and course work, may choose from among a variety of courses closely related to elementary education, including advance education courses. The following are examples of appropriate courses:

	<u>S.H.</u>
AR 383 Techniques of Drawing and Painting	3
AV 452 Photography in Education	3
AV 455 Projectural Technology for Instruction	3
ED 332 Diagnosis and Correction of Reading Difficulties	3
ED 360 Methods and Materials in Elementary Music	3
ED 362 Methods and Materials in Elementary Art	3

ED 402 Team Teaching	3
ED 415 Methods and Materials for the Gifted Learner	3
ED 416 Teaching the Slow Learner	3
ED 543 Improving Reading Instruction	3
EN 300 History and Structure of the English Language	3
ES 252 Geography of Anglo-America	3
ES 301 Astronomy	3
ES 502 Conservation of Natural Resources	3
HPE 370 The Theory and Practice of Physical Education in Elementary Schools	3
LI 210 Children's Literature	3
LI 440 Cataloguing and Classification	3
LI 450 The School Library	3
LI 451 Storytelling	3
MA 354 Modern Geometry for Elementary School Teachers	3
MA 351 Modern Mathematics for Elementary School Teachers I	3
MU 400 Creative Activities in Elementary School Music	3
OC 290 Speech Improvement in the Classroom	3
OC 412 Phonetics	3

0 - 12

TOTAL 33

Prerequisites

Prerequisites for this degree include three semester hours credit in each of the following:

- PY 200 General Psychology
- PY 224 Child Growth and Development
- PL 380 Introduction to Philosophy
- ED 420 Education Measurement
- ED 480 Philosophy of Education

One full semester of successful classroom teaching experience in an accredited public or private school.

or

One-half semester of successful student teaching under college supervision.

Comprehensive Examination

Candidates must pass a comprehensive examination in the general field of Elementary Education and in any or all of the following related areas: Guidance, Curriculum, Psychology, Administration, and Philosophy.

MASTER OF EDUCATION IN GUIDANCE

<u>Required Courses</u>	<u>S.H.</u>
ED 430 Principles and Practices in Guidance	3
ED 443 Secondary School Curriculum	3
or ED 450 Elementary School Curriculum	3
ED 500 Research and Evaluation	3
ED 520 Psychological Foundations of Education	3
ED 530 Counseling Theory and Practice	3
ED 534 Educational and Vocational Information	3
ED 560 Principles & Practices in School Administration	3
ED 580 Philosophical Foundations of Education	3
	24
<u>Electives Courses - Nine Hours From:</u>	
ED 277 Psychology of Exceptional Children	3
ED 531 Organization and Administration of Guidance Programs	3
ED 532 Practicum in Counseling	3
ED 533 Psychological Tests in Guidance	3
ED 535 Principles and Practices in Placement	3
	<u>9</u>
	TOTAL 33

Prerequisites

Prerequisites for this degree include three semester hours credit in each of the following:

- PY 200 General Psychology
- PY 224 Child Growth and Development or
- PY 226 Adolescent Psychology
- ED 380 Introduction to Philosophy
- ED 420 Educational Measurement
- ED 480 Philosophy of Education

One year of successful teaching in an accredited public or private school.

Comprehensive Examination

Candidates must pass a comprehensive examination in the general field of Guidance and in any or all of the following related areas: Curriculum, Psychology, Administration, and Philosophy.

MASTER OF EDUCATION IN READING

<u>Required Courses</u>	<u>S.H.</u>
ED 332 Diagnosis and Correction of Reading Difficulties	6
ED 443 Secondary School Curriculum	3
or ED 450 Elementary School Curriculum	3
ED 500 Research and Evaluation	3
ED 520 Psychological Foundations of Education	3
ED 542 Improving Reading Instruction	3
ED 544 Seminar in Reading and Language Arts	3
ED 580 Philosophical Foundations of Education	3
	24

Elective Courses For Reading Specialists

Each candidate will round out his specialization with nine hours of appropriate course work selected at the discretion of the advisor in keeping with professional goals, experience, and courses already taken. Choices will be made from the following fields:

Administration and Supervision	
Educational Methods and Materials	
Linguistics	
Psychology and Measurement	
Oral Communication and Speech	9

Candidates must submit a major paper as part of the requirements for the seminar in Reading and Language Arts. This paper must be completed before the candidate may take the comprehensive examination.

TOTAL	<u>33</u>
-------	-----------

Prerequisites

Prerequisites for this degree include three semester hours credit in each of the following:

- PY 200 General Psychology
- PY 224 Child Growth and Development or
- PY 226 Adolescent Psychology
- ED 300 Teaching Reading in the Elementary School or
- ED 331 Developmental Reading in the Secondary School
- PL 380 Introduction to Philosophy
- ED 420 Educational Measurement
- ED 480 Philosophy of Education

One full semester of successful classroom teaching experience in an accredited public or private school.

or

One-half semester of successful student teaching under college supervision.

Comprehensive Examination

Candidates must pass a comprehensive examination in the general field of Reading Instruction and Remedial Procedures and in any or all of the following related areas: Curriculum, Psychology, and Philosophy.

MASTER OF EDUCATION IN SCHOOL ADMINISTRATION

The concentration in Administration is for persons wishing to prepare for school administration at the level of elementary or secondary principalships (including assistant principals and department heads) and also as a beginning experience for school district office administration.

It is to be understood that further work beyond this degree would be required for preparation for superintendencies and other specialized administrative areas. The latter might include curriculum directors and assistant superintendents with special responsibilities for business management, school plant, personnel, and pupil services.

areas: Psychology, Guidance, Administration, and Philosophy.

DEPARTMENTAL COURSE OFFERINGS

The following section contains courses scheduled through the Division of Continuing Studies. Some of these are also given in the day session.

CLASS SCHEDULES

Fall and spring classes in the Division of Continuing Studies are scheduled between the hours of 5:00 P.M. and 10:15 P.M., Monday through Thursday and from 8:00 A.M. and 1:05 P.M. on Saturday. Each course meets once per week.

Fall and spring classes in the day session are scheduled between the hours of 8:00 A.M. and 5:00 P.M., Monday through Friday. Most courses meet three times per week.

Summer School classes are scheduled by the Division of Continuing Studies between the hours of 8:30 A.M. and 12:45 P.M., Monday through Friday, and from 7:00 P.M. to 9:05 P.M. on Monday, Wednesday and Thursday of each week. Morning courses meet five times per week and evening courses meet three times per week.

Changes in scheduling will be announced at Registration or as soon thereafter as possible.

GENERAL STATEMENT ON COURSES

Students should make certain that they have the necessary prerequisites (if any) for each course. Failure to do so may result in loss of any credit earned in a course having prerequisites.

Courses marked G are strictly graduate courses whereas those designated UG may be taken for either undergraduate or graduate credit. In order to enroll in a G course or to obtain graduate credit in a UG course; a student must hold a bachelor's degree from a four-year college and, at the time of registering for a course, indicate on the registration form his intention of taking it for graduate credit.

Symbols following each course description are interpreted as:

F	fall term
S	spring term
SS	summer term

The Bulletin of the Division of Continuing Studies, which is published each term, gives the days and hours of meeting for all courses scheduled during the term.

Successful completion of courses does not obligate the Graduate Committee to accept a student in a graduate program.

DIVISION OF THE HUMANITIES

Dr. Harold Guy Ridlon, Director

The Division of The Humanities is comprised
of the Departments of Art, English, Modern
Foreign Languages, Music, Philosophy, and
Speech and Drama.

DEPARTMENT OF ART

Associate Professor Doris Emma Tebbetts, Chairman

Associate Professor: Robert Alphonse Daniel

Instructors: Shirley Ann Wood, William Kendall, Janice Walker Miller.

AR 212 General Crafts UG

This course offers experience with a variety of media and processes in the study of relationships among material, technique, and form. Provision for the individual's particular need for teaching and/or interest in personal development will be made. 3 semester hours credit. (F 67, 69; S 69; SS 70)

AR 383 Techniques of Drawing and Painting UG

Experimenting with a variety of media such as charcoal, pastel, water color, gouache, and oil, the student may work with varied subject matter including portraits, landscapes, still life and the costumed figure. Evaluation will be based on the individual student's extent of growth during the course. 3 semester hours credit. (SS 68)

AR 384 Advanced Crafts UG

In this course a student may concentrate in one or two craft media. Pre-requisites: AR 213 (Crafts I U) or AR 214 (Crafts II U) or permission of the Instructor. 3 semester hours credit. (SS 68, 70)

AR 391 History of Art UG

This course is designed to acquaint the student with the major historical developments in art. The phenomenon of style is examined in conjunction with its relation to the historical process. Techniques of stylistic analysis are employed in the study of objects chosen from museum collections. There will be assigned readings and museum work. 3 semester hours credit. (F 68)

AR 394 Renaissance Art and Architecture UG

This course is concerned with the development of the arts of architecture, painting, and sculpture with special emphasis on their interrelationships and their relation to the artistic theories and cultural ideals of the Renaissance. 3 semester hours credit. (S 70)

AR 395 Baroque Art G

The High Renaissance, Mannerist and Baroque styles of the 16th

through the 18th centuries will be studied, with particular emphasis on Italy. Pre-requisites: AR 391 (History of Art UG) or AR 394 (Renaissance Art and Architecture UG) or permission of the Instructor. 3 semester hours credit. (S 68, 69)

AR 396 History of 19th Century Art and Architecture UG

Sculpture, painting and architecture of Europe and America will be studied. Major art movements from Neo-Classicism to Post-Impressionism and the artists associated with them will receive special attention. AR 391 (History of Art UG) or permission of the Instructor. 3 semester hours credit. (F 67; SS 70)

AR 397 History of Contemporary Art and Architecture UG

This course involves a study of painting, sculpture, and architecture in Europe and America from 1800 to the present. Representative works of the various movements which have developed within the history of art will be studied. Attention will be paid to the basic philosophies underlying contemporary art. 3 semester hours credit. (SS 69)

AR 398 Arts of the Far East UG

A selective review of major achievements in the arts of the Asiatic tradition: including those of India, Indonesia, China, Korea, and Japan. Comparison, when appropriate, with the arts of the West. Prerequisite: AR 391 (History of Art UG) or permission of the Instructor. 3 semester hours credit. (F 69)

DEPARTMENT OF ENGLISH

Professor Harold Guy Ridlon, Chairman

Professor: Samuel Norman Sheinfeld

Associate Professors: Barbara Ann Chellis, Joseph DeRocco, Margaret Frances Guerin, Mary Moore Jarvis, Virginia Carville Joki.

Assistant Professors: Harold Francis DeLisle, Katherine Frances Lomax, James Keron Nerney, Joseph Yokelson.

Instructors: Thomas James Bracken, Katherine Sheila Danneman, Dennis Allen Flynn, Charles Fanning, Jr., Karen Friedberg Figdor, Robert Brown Parker, Daryl Jane Schoenknecht.

EN 200 Advanced Composition UG

Expository writing is taught through frequent practice, analysis of models, and criticism by instructor and students. 3 semester hours credit. (F 67, 68, 69)

EN 211, 212 Literary Classics of Western Civilization UG

Classic literature of Western Civilization will be studied in relation to historical background, but with particular emphasis on literary values. Among the works to be read are Homer's *Iliad*, tragedies of Aeschylus, Sophocles, and Euripides, Dialogues of Plato, selections from the Bible, Vergil's *Aeneid*, Dante's *Inferno*, Chaucer's *Canterbury Tales*, Cervantes' *Don Quixote*, plays by Shakespeare, Moliere, Goethe, and Shaw, and one or more modern novels. 3 semester hours credit for each term. EN 211 (F 67, 68; SS 68, 69) EN 212 (S 68, 69, 70)

EN 221, 222 Major English Writers UG

This course will emphasize the major figures of English literature from Anglo-Saxon times to the modern period. Authors will be studied in relation to historical background but with particular stress on literary values. 3 semester hours credit for each term. EN 221 (F 67, 68; SS 68, 69) EN 222 (S 68, 69, 70)

EN 300 The History and Structure of the English Language UG

The changes in the structure of the English language from Anglo-Saxon to modern English will be studied with attention to pertinent historical background. There will be an introductory study of structural linguistics and generative grammar. 3 semester hours credit. (S 68, 69, 70)

EN 330 Modern American Literature UG

This course is designed to acquaint the student with the major literary trends in American writing of the twentieth century. The course focuses primarily on the novel, with examples from Dreiser, Hemingway, Fitzgerald, Lewis, Wilder, K. A. Porter, and Salinger. 3 semester hours credit. (S 68, 69, 70; SS 68, 69, 70)

EN 331 United States Literature through the Nineteenth Century UG

In the first semester, the writings of the Puritans, Cooper, Brown, Poe, Emerson, Thoreau, Whitman, and Dickinson will be discussed; in the second semester, emphasis will be given to the novels and tales of Hawthorne, Melville, Twain and James. 3 semester hours credit. (F 67, 68, 70)

EN 341 Shakespeare UG

In this course selected plays of Shakespeare will be studied. In each quarter three plays, generally two tragedies and one comedy, will be read with attention to both language and thought. 3 semester hours credit. (F 67, 68, 69; SS 68, 69, 70)

EN 352 Victorian Prose and Poetry UG

The major emphasis will be placed upon the poetry of Tennyson, Browning, and Arnold, but the works of other 19th century poets such as Hopkins and Hardy will also be read and discussed. The essays of Carlyle, Arnold, Newman, Huxley, and others will also be studied. 3 semester hours credit. (SS 68, 69, 70)

EN 360 The Victorian Novel UG

This course will concentrate on the major novelists of the 19th century: Dickens, Thackeray, Eliot, Meredith, and Hardy. Attention will be given to biographical and historical background. 3 semester hours credit. (S 68, 69, 70)

EN 383 Modern Irish Literature UG

This course will include Irish writing from 1890 to the present, with special emphasis on the works of Yeats, Synge, O'Casey, Joyce, O'Connor, and O'Faolain. 3 semester hours credit. (S 68, 69, 70)

EN 394 Modern Poetry UG

This course covers the major British and American poets of the 20th century with particular emphasis on the works of Hopkins, Yeats, Robinson, Eliot, Auden, and Thomas. 3 semester hours credit. (S 68, 69, 70)

DEPARTMENT OF MODERN FOREIGN LANGUAGES

Assistant Professor Robert Charles Arruda, Chairman

Associate Professor: Wayne Maurice Judah.

Assistant Professors: Robert Allen Briggs, Joseph Matthew Gianini, Mary Cingolani Shapiro.

Instructors: Anthony Charles Cotugno, Robert Dale Dawley, Armand Eugene Desautels, Barbara Heidelauf George, Lenore Marie Padula.

French

LF 151 Intermediate French UG

This course is a continuation of Elementary French with stress on

essential grammatical points, oral work, and reading knowledge of the language. An introduction to some aspects of French literature will also be included. Prerequisite: LF 101, 102 (Elementary French U). 3 semester hours credit. (SS 67, 69; F 68; S 68, 70).

LF 152 Intermediate French UG

This course is a continuation of Elementary French with stress on essential grammatical points, oral work, and reading knowledge of the language. An introduction to some aspects of French literature will also be included. Prerequisite: LF 151 (Intermediate French UG). 3 semester hours credit. (F 67, 69; S 69; SS 68, 70).

LF 181 Introduction to Advanced French UG

A rapid and systematic review of French grammar along with more advanced study of the language, this course also includes advanced reading selections with emphasis on French culture. 3 semester hours credit. (S 68, 70; SS 67, 69; F 68).

LF 182 Introduction to Advanced French UG

A rapid and systematic review of French grammar along with more advanced study of the language, this course also includes advanced reading selections with emphasis on French culture. Prerequisite: LF 181 (Introduction to Advanced French UG). 3 semester hours credit. (F 67, 69; S 69; SS 68, 69).

LF 252 Sixteenth Century French Literature UG

This course will study the development of ideas through the poetical and prose works of Rabelais, La Pleiade, Ronsard, DuBellay and Montaigne. 3 semester hours credit. (F 67).

LF 281 French Conservation and Civilization UG

This course is designed to improve oral expression and pronunciation. Discussion topics on aspects of French Civilization will be assigned, with a view to building vocabulary and to making applications of structures learned. There will also be assigned reading in French Civilization. Prerequisite: LF 181, 182, (Introduction to Advanced French UG). 3 semester hours credit. (S 68).

LF 301 Seventeenth Century French Literature UG

The principal historical events and representative writers of France in the seventeenth century will be studied with the object of understanding Classicism as a literary movement. The course will deal with the ideas and works of this period from Malherbe through Madame de Maintenon. Prerequisite: LF 201 (French Literature of the Middle Ages UG). 3 semester hours credit. (SS 68).

LF 352 Eighteenth Century French Literature UG

The literature of the French Revolution and Empire and the literary contributions of the Encyclopedists will be the principal concerns of this course. Some of the authors to be studied are: Le Sage, Marivaux, Montesquieu, Voltaire, Rousseau, Beaumarchais, Chénier, and the Encyclopedists. 3 semester hours credit. (F 68).

LF 381 French Linguistics and Phonetics UG

In this course a linguistic approach to the study of the sounds of the French language is made with emphasis on a mastery of the elements of correct standard pronunciation. Prerequisite: LF 181, 182 (Introduction to Advanced French Literature UG). 3 semester hours credit. (S 69).

LF 401 Nineteenth Century French Literature UG

This course will cover the nineteenth century through representative literary works and the principal literary movements of Romanticism. Prerequisite: LF 201, 202 (French Literature of the Middle Ages UG); and LF 301, 302 (Seventeenth Century French Literature UG). 3 semester hours credit. (F 69).

LF 452 Twentieth Century French Literature UG

This course involves a study of modern French literature from the authors of "national energy" at the turn of the century, to those of the present day. Important literary movements will be discussed and typical works of well-known authors will be read for class work and individual reports. Particular attention will be given to Bourget, Gide, Apollinaire, Peguy, Claudel, Romain Rolland, Sartre, Camus, and others. Prerequisite: LF 401, 402 (Nineteenth Century French Literature UG). 3 semester hours credit. (S 70).

LF 482 Advanced French Composition and Grammar Review

Emphasis will be on a review and mastery of the essential grammar of the French language with the intention of making it a useful tool for the students' written and oral use and application to the classroom situation. Students will be required to write compositions of various lengths and forms to develop their ability to express themselves in the written form of the language. 3 semester hours credit. (SS 70).

German

LG 151 Intermediate German UG

This course includes a systematic review of basic German grammar and pronunciation. Graded reading selections will accompany the review to develop and improve the students' reading and conversation-

al knowledge of the language. An introduction to some aspects of German culture will also be included. Prerequisite: LG 101, 102 (Elementary German U) or its equivalent. 3 semester hours credit. (S 68, 70); F 68; SS 69).

LG 152 Intermediate German UG

This course includes a systematic review of basic German grammar and pronunciation. Graded reading selections will accompany the review to develop and improve the students' reading and conversational knowledge of the language. An introduction to some aspects of German culture will also be included. Prerequisite: LG 151 (Intermediate German UG). 3 semester hours credit. (F 67, 69; S 69; SS 68, 70).

LG 181 Introduction to Advanced German UG

This course includes a review of German grammar and systematic vocabulary building through reading and discussion of more advanced forms of German literature. The discussions will be conducted mostly in German. Required of all German minors. 3 semester hours credit. (F 67, 68, 69).

LG 182 Introduction to Advanced German UG

This course includes a review of German grammar and systematic vocabulary building through reading and discussion of more advanced forms of German literature. The discussions will be conducted mostly in German. Required of all German minors. Prerequisite: LG 181 (Introduction to Advanced German UG). 3 semester hours credit. (S 67, 68, 69).

LG 201 Survey of German Literature UG

This course offers a study of the beginnings of the German language, of the important movements and their representative works, and of the outstanding authors in the German language from the Middle Ages to the present. Required of all German minors. Prerequisite: LG 181, 182 (Introduction to Advanced German UG). 3 semester hours credit. (F 67, 68, 69).

LG 201 Survey of German Literature UG

This course offers a study of the beginnings of the German language, of the important movements and their representative works, and of the outstanding authors in the German language from the Middle Ages to the present. Required of all German minors. Prerequisite: LG 201 (Survey of German Literature UG). 3 semester hours credit. (S 67, 68, 69).

Spanish

LS 151 Intermediate Spanish UG

A review of the important aspects of correct Spanish pronunciation will accompany the development of an oral and aural command of the language. Aspects of Hispanic culture will be introduced. Prerequisite: LS 101, 102 (Elementary Spanish U). 3 semester hours credit. (F 68; (S 68, 70); (SS 69).

LG 152 Intermediate Spanish UG

A review of the important aspects of correct Spanish pronunciation will accompany the development of an oral and aural command of the language. Aspects of Hispanic culture will be introduced. Prerequisite: LG 151 (Intermediate Spanish UG). 3 semester hours credit. (F 67, 69); S 69; SS 68; 70).

LS 181 Introduction to Advanced Spanish UG

This course offers a more detailed study of important points of Spanish grammar with attention given to increasing vocabulary, to correct pronunciation, and to improving audio-oral skills. More advanced reading selections and continued presentation of cultural aspects will provide opportunity for acquaintance with the Hispanic world. 3 semester hours credit. (F 67, 68, 69).

LS 182 Introduction to Advanced Spanish UG

This course offers a more detailed study of important points of Spanish grammar with attention given to increasing vocabulary, to correct pronunciation, and to improving audio-visual skills. More advanced reading selections and continued presentation of cultural aspects will provide opportunity for acquaintance with the Hispanic world. Prerequisite: LS 181 (Introduction to Advanced Spanish UG). 3 semester hours credit. (S 67, 68, 69).

LS 201 Survey of Spanish Literature UG

This course involves a survey of Hispanic literature from earliest times to the present. Major literary movements, works, and authors will be stressed. Required of all Spanish minors. Prerequisite: LS 181, 182 (Introduction to Advanced Spanish UG). 3 semester hours credit. (F 67, 68, 69).

LS 202 Survey of Spanish Literature UG

This course involves a survey of Hispanic literature from earliest times to the present. Major literary movements, works, and authors will be stressed. Required of all Spanish minors. Prerequisite: LS 201 (Survey of Spanish Literature UG). 3 semester hours credit. (S 67, 68, 69).

DEPARTMENT OF MUSIC

, Chairman

Assistant Professors: Dorothy Rose Ferry, Vincent Harold Gannon,
Marjorie Elizabeth Hayward.

Instructor: Jacob Liberles

MU 321 Music of the Renaissance and Baroque Periods UG

The chronological development of forms and styles in both sacred and secular music from the Middle Ages through the Baroque will be given special emphasis. Compositions will be studied through recordings. Reading assignments in reference books and standard histories will be given. 3 semester hours credit. (S 68, 69, 70).

MU 390 Music of the 20th Century UG

Important changes in contemporary music will be studied. Major musical forms written since 1900 will be analyzed and critical evaluation made of compositions of this period. Biographical background and historical influences will form a part of the basis of study. This will be approached through the use of textbook and recordings. Prerequisite: MU 320 (History and Development of Music). 3 semester hours credit. (S 68, 69, 70).

MU 400 Creative Activities in Elementary School Music UG

Practical experience will be offered in the following areas: free and directed response to rhythm; use of percussion, melody, and harmony instruments; piano chording; creative listening and singing activities. Prerequisite: MU 310 (Music Skills). 3 semester hours credit. (F 67, 68, 69).

DEPARTMENT OF PHILOSOPHY

, Chairman

Associate Professors: Joseph John Corkery, Warren David Englund.

Assistant Professor: Achille Adrien Joyal.

PL 381 History of Ancient and Medieval Philosophy UG

The history of western philosophy appropriately begins with its emergence from mythology and religion. The study of systematic philosophy starts with Thales and for the purposes of the course concludes with Duns Scotus. Emphasis will be placed on the development of metaphysical, epistemological, and ethical thinking, and attention will be given to the classical problems of mind and matter, faith and reason, particulars and universals, and good and evil. 3 semester hours credit. (S 68; SS 69).

The history of modern philosophy will employ the same general approach as is used in the history of ancient and medieval philosophy. The course begins with Francis Bacon and Rene Descartes, and continues with the study of Hobbes, Spinoza, Locke, Malebranche, Leibniz, Berkeley, and Hume, and concludes with Immanuel Kant. 3 semester hours credit. (F 68; S 70).

DEPARTMENT OF SPEECH AND DRAMA

Associate Professor Robert Jackson Barnett, Chairman

Assistant Professors: Karin VanLissel DuBin, Robert Kenneth Friedman, Willis Norman Pitts.

Instructors: Lee Anne Firestone Dunne, George William Terhune.

OC 290 *Speech Improvement in the Classroom* UG

This course is designed to help prospective teachers 1) identify children's speech and hearing problems, and understand the needs of these speech-handicapped children; 2) recognize opportunities in everyday classroom activities to provide help and guidance for these children; and 3) provide supplementary activities that stimulate and improve children's speech. 3 semester hours credit. (S 68, 70; SS 68, 70).

OC 330 *Creative Dramatics* UG

This course is designed to give training and methodology in developing the child's creative faculties through the use of dramatic play. Students will participate in classroom exercises, and work in laboratory sessions with children in order to put into practice the concepts of preparation and evaluation learned through class discussion and lecture. 3 semester hours credit. (S 68, 69, 70) (SS 68, 69).

OC 340 *Oral Interpretation* UG

This course will offer opportunity for the study and practice of various styles of presentation in the oral interpretation of prose and poetry. A detailed evaluation and analysis of that material which is suitable for preparation and delivery to the class will be made. This course is especially recommended for those students with a definite interest in literature and humanities. Prerequisite: OC 200 (Oral Communication I U) 3 semester hours credit. (F 67, 68; S 69, 70).

OC 360 *Discussion and Debate* UG

Through frequent practice and intensive study the student is trained in the principles and methods of communication as they apply to the

group situation. The function aspects of group membership, discussion, debate, logic, and leadership will be given particular attention. Prerequisite: OC 200 (Oral Communication I U) 3 semester hours credit. (S 68, 70; F 68)

OC 380 Play Production UG

This course is designed to treat the various aspects of school play production, ranging from classroom to all-school presentations on the elementary or high school level. It deals with such problems as selecting a play, casting, directing, lighting, costuming and designing, and building scenery. Practical work in the above activities will be required of all students. 3 semester hours credit. (S 68, 69, 70; SS 68, 70).

OC 402 Advanced Oral Communication UG

In the advanced course the student is helped to assume leadership responsibilities in the development of both meaning and form in logical and creative modes of oral communication. The students learn to use the more complex areas of oral communication, i.e., role-playing, creative dramatics, story telling, interpretive reading and choral speaking to help him develop the total communicative process. Prerequisite: OC 200 (Oral Communication I U) 3 semester hours credit. (Every term)

OC 412 Phonetics UG

The primary emphasis of this course will be upon the study of the International Phonetic Alphabet, and its application to the sounds of the language. The factors of articulation, enunciation, and pronunciation will be noted along with drill work in connection with the sounds of acceptable speech. Further, stress will be placed upon an understanding of the vowels and consonants and upon modes of sound production. Prerequisite: OC 204 (Fundamentals of Oral Communication U) 3 semester hours credit. (F 67, 68; SS 69).

OC 420 Children's Theatre UG

This course is designed as a survey of the history and the objectives of theatre for the child audience. It examines some of the special techniques of acting, directing, and producing plays for children. Attention is given to play selection and the adaptation of children's literature for dramatic presentation. Students will direct scenes or "Cuttings" as part of their class work. Prerequisite: OC 380 (Play Production UG) 3 semester hours credit. (F 67, 68; SS 68) S 68.

DIVISION OF NATURAL SCIENCES AND MATHEMATICS

Dr. Frank Joseph Hilferty, Director

The Division of Natural Sciences and Mathematics is comprised of the Departments of Biological Sciences, Chemistry, Earth Sciences and Geography, Mathematics and Physics.

DEPARTMENT OF BIOLOGICAL SCIENCES

Professor Kenneth Jesse Howe, Chairman

Commonwealth Professor and Dean of the Graduate School: Frank Joseph Hilferty.

Professors: Elizabeth Fahey Cirino, Lawrence Bronislaw Mish, William James Wall, Jr.

Associate Professors: James Robert Brennan, Walter Arthur Morin.

Assistant Professors: Robert Anthony Coler, Charles Wesley Howie, Jr.

Instructor: David Brannigan.

Visiting Lecturer: Sabit Gabay.

BI 281 Invertebrate Zoology UG

The biology of invertebrates with emphasis on comparative morphology, taxonomy, physiology, natural history, and evolution and representatives of the principal classes of each phylum are studied. Prerequisite: BI 120 (General Zoology U). 3 semester hours credit. (F 69).

BI 282 Comparative Chordate Anatomy UG

A phylogenetic approach to the study of chordate gross anatomy supplemented by laboratory dissections of amphioxus, sand shark, mud puppy, turtle, pigeon, and cat is used. Emphasis is placed on interpretation of morphological trends imposed on chordate systems by environmental stimuli. Prerequisite: BI 120 (General Zoology U). 3 semester hours credit. (S 68).

BI 283 Field Natural History UG

The identification, classification, and natural history of local plants and animals, and techniques of collecting and preserving specimens are included in this course. Prerequisite: BI 110 (General Botany U); BI 120 (General Zoology U). 2 semester hours credit. (SS 69).

BI 292 Plant Anatomy UG

This course includes a study of structural features of extant vascular plants from ontogenetic and phylogenetic viewpoints, with special attention given to recent developments in comparative plant anatomy,

references to nonvascular and extinct vascular plants, correlation of microscopic features with gross structure, the value of plant anatomy to other sciences and industry, and introductory micro-technique. Prerequisite: BI 110 (General Botany U). 3 semester hours credit. (S 70).

BI 300 Biochemistry UG

A study of the functions, chemical transformations, and attendant energy changes associated with basic biological phenomena is made. Prerequisite: BI 110 (General Botany U); BI 120 (General Zoology U); CH 131-2 (General Chemistry U). 3 semester hours credit. (SS 70).

BI 381 Animal Physiology UG

General physiological principles common to invertebrates and vertebrates are discussed with major emphasis given to: cellular organization, transport phenomena, cellular respiration, secretion, irritability, contraction, and integrated functions in animals. Prerequisite: BI 120 (General Zoology U); CH 131-2 (General Chemistry U); or permission of the Instructor. 3 semester hours credit. (F 67).

BI 393 Genetics UG

An intensive study is made of the basic principles of heredity and variation in plants and animals. Emphasis is placed on methods of problem solving and the historical background of the science. Prerequisite: BI 110 (General Botany U); BI 120 (General Zoology U); or permission of the Instructor. 3 semester hours credit. (F 68).

BI 405 Systematics and Evolution UG

In this course consideration is given to contemporary taxonomic problems in the light of evolutionary phenomena. Emphasis is placed on such mechanisms of specialization as mutations, variation, hybridization, polyploidy, isolation, natural selection, and genetic drift. Prerequisite: BI 393 (Genetics UG), or permission of the Instructor. 3 semester hours credit. (S 69).

BI 411 Ecology UG

The dynamics and evolution of populations, communities, and ecosystems are emphasized. Students will become acquainted with the communities of Southeastern Massachusetts through field studies which make up a major portion of the laboratory requirement. Prerequisite: BI 110 (General Botany U); BI 120 (General Zoology U), or permission of the Instructor. 3 semester hours credit. (S 69).

BI 427 Cytology UG

A detailed study is made of cellular morphology and organization

including descriptions of major intracellular processes and the functional significance of cellular structures. Prerequisite: BI 110 (General Botany U); BI 120 (General Zoology U); or permission of the Instructor. 3 semester hours credit. (SS 68).

BI 504 Workshop in BSCS Special Materials G

The basic topics of the BSCS Special Materials Curriculum will be covered and representative laboratory exercises will be conducted by the students. Specific attention will be devoted to the utilization of these materials in high school biology classes through out the program. This course may be taken only by participants in the Workshop in BSCS Special Materials sponsored by BSCS and the National Science Foundation. 2 semester hours credit.

BI 520 Neurophysiology G

The physiology of central and peripheral nervous systems, receptors and muscles, considered in both vertebrates and invertebrates. Prerequisites: BI 120 (General Zoology U); BI 381 (Animal Physiology UG); CH 131, 132 (General Chemistry U). 3 semester hours credit. (F 69).

BI 530 Entomology G

This course is a study of the biology and control of insects with emphasis on the taxonomy of the orders and major families. Formation of an identified insect collection is required. Prerequisite: BI 120 (General Zoology U); BI 110 (General Botany U). 3 semester hours credit. (F 68).

DEPARTMENT OF CHEMISTRY

Associate Professor Wilmon Blackmar Chipman, Chairman

Associate Professor: Henry Owen Daley.

Assistant Professors: Vahe Madiros Marganian, Joseph Michael Pagano, Margaret Borden Souza.

CH 381, 382 Physical Chemistry UG

A study will be made of the laws governing the physical and chemical behavior of compounds. Prerequisite: CH 142 (Inorganic Chemistry with Qualitative Analysis), MA 210 (Calculus I UG). CH 381 (Physical Chemistry UG) is prerequisite to CH 382 (Physical Chemistry UG). 4 semester hours credit each. CH 381 (F 67); CH 382 (S 68).

CH 343, 344 Organic Chemistry UG

A survey will be made of the chemistry of organic compounds from

the points of view of synthesis, structure and reactions, including some study of the mechanisms of organic reactions. Prerequisite: CH 142 (Inorganic Chemistry with Qualitative Analysis U) or CH 132 (General Chemistry U) and permission of the Instructor. CH 343 (Organic Chemistry UG) is prerequisite for CH 344 (Organic Chemistry UG). 4 semester hours credit each. CH 343 (F 68); CH 344 (S 69).

CH 241 Inorganic Quantitative Analysis UG

A study will be made of the classical and modern methods for the volumetric and gravimetric determination of elements and groups. Prerequisite: CH 142 (Inorganic Chemistry with Qualitative Analysis U) or permission of the Instructor. 4 semester hours credit. (F 69 through S 70).

CH 242 Principles of Inorganic Chemistry UG

Modern structural concepts of inorganic chemistry and descriptive inorganic chemistry are presented at an intermediate level. Prerequisite: CH 241 (Inorganic Quantitative Analysis UG) or permission of the Instructor. 3 semester hours credit. (S 68).

CH 390 Research Problems in Chemistry UG

Special projects for advanced students desiring individual instruction in the methods of chemical research. Prerequisite: permission of the department. Credit and hours to be arranged. (Every term)

CH 581 Modern Organic Chemistry G (NSF)

A study of organic chemistry from a theoretical viewpoint which excludes most of synthetic organic chemistry from consideration. Topics to be covered include the structure and charge distribution of functional groups, structure proof by chemical and physical methods, stereochemistry, inductive effects, resonance, steric effects, and organic reaction mechanisms. This course can be taken profitably by a student who has had a traditional course in Elementary Organic Chemistry. This course is open only to participants in the National Science Foundation In-Service Institute. 3 semester hours credit. (F 67).

CH 582 Biochemistry G (NSF)

A study of the chemical components of living matter and of the major processes of cellular metabolism, including the fundamental chemical characteristics of biological compounds and enzymatic reactions. This course is open only to participants in the National Science Foundation In-Service Institute. 3 semester hours credit. (S 68)

DEPARTMENT OF EARTH SCIENCES AND GEOGRAPHY

Professor Emanuel Maier, Chairman

Professor: Agrippina Anne Macewicz.

Associate Professors: Ira Ellsworth Furlong, Howard Franklin Hirt.

Assistant Professors: Robert Francis Boutilier, Ralph Sanborn Fellows, Marilyn Hayden Furlong.

Instructor: Robert John Dillman.

Visiting Lecturers: Joseph Chase, James Hain, George Knowlton Lewis, Roberts Mednis, Leonard Solomon.

ES 182 Physical Geography UG

In this course the characteristics, classification, origin, and distribution of the earth's physical phenomena such as atmosphere, climate, vegetation, and soils are studied as well as the distribution of populations. Emphasis is placed upon developing an understanding and appreciation of the relationships between the physical features of the earth and man. Field trips. Prerequisite: ES 181 (Physical Geology U). 3 semester hours credit. (S 68, 69, 70).

ES 192 Historical Geology UG

Historical Geology is a study of the major geological events on the earth as revealed by the structure and composition of the rocks and the evolution of the fossil record. Prerequisite: ES 181 (Physical Geology U). 3 semester hours credit. (S 68, 69, 70).

ES 252 Geography of Anglo-America UG

In this course the fundamentals studied in ES 200 are applied in the analysis of geographic regions of Anglo-America. This course is designed to give familiarity with the methods of securing, organizing, and presenting geographical data. Prerequisite: ES 181 (Physical Geology U), ES 182 (Physical Geography UG), or ES 200 (Fundamentals of Geography U). 3 semester hours credit. (S 68, 69, 70; SS 68, 69).

ES 301 Astronomy UG

The major concern of this course is a study of the earth, moon, planets, sun, and other stars and galaxies. Emphasis is placed on such topics as the new findings of radio astronomy and the uses of earth satellites. Day and evening observations. 3 semester hours credit. (F 68).

ES 303 Meteorology UG

This is an introductory course in which atmospheric behavior, weather elements, and cyclonic phenomena such as hurricanes, tornadoes, and frontal circulations are analyzed. 3 semester hours credit. (F 67; S 70).

ES 304 Climatology UG

A study will be made of climatic elements and climatic controls and their application to the analysis of climatic regions of the world. Prerequisite: ES 303 (Meteorology UG). 3 semester hours credit. (S 68; SS 70).

ES 305 Oceanography (bio-chemical) UG

This course will present a survey of marine biology and chemistry with emphasis on current research as well as past achievements in each field. 3 semester hours credit. (F 67).

ES 306 Oceanography (physical) UG

A study will be made of ocean water temperature, circulation, shore lines, ocean basins, and mineral resources. 3 semester hours credit. (F 69).

ES 315 Cartography UG

This course aims to train students in the graphic presentation of geographic data, and acquaint them in the latest techniques of map construction. 3 semester hours credit. (F 68).

ES 352 Urban Geography UG

The geographic aspects of the city, including location, function, land use patterns, and tributary areas, will be analyzed. Prerequisite: ES 181 (Physical Geology U), ES 182 (Physical Geography UG), or ES 200 (Fundamentals of Geography U). 3 semester hours credit. (F 67).

ES 362 Economic Geography UG

In this course the mineral, plant, and soil resources of the world are studied with emphasis on their location and present and potential uses. Manufacturing regions and the transportation systems that link the various regions of the world are also considered. Prerequisite: ES 181 (Physical Geology U), ES 182 (Physical Geography UG), ES 200 (Fundamentals of Geography U), or permission of the Instructor. 3 semester hours credit. (F 68).

ES 372 Mineralogy UG

This course will present an introduction to crystallography followed by the determinative and physical mineralogy of important rocks and ore minerals. Prerequisite: A knowledge of chemistry. 4 semester hours credit. (SS 68).

ES 462 Geology of North America UG

Each of the physiographic provinces of North America will be studied in terms of their geomorphology and structural relationships. Prerequisite: ES 181 (Physical Geology U). 3 semester hours credit. (S 68, 70).

ES 464 Economic Geology UG

This course considers the geochemical and physical processes that produce metallic and non-metallic mineral deposits. Prerequisite: ES 181 (Physical Geology U). 3 semester hours credit. (SS 69).

ES 475 Paleontology UG

Topics covered will be a survey of the fossil record introduction to invertebrate and vertebrate paleontology and paleobotany. Emphasis will be placed on the most important phyla. Prerequisite: ES 181 (Physical Geology U), ES 192 (Historical Geology UG). 3 semester hours credit. (SS 70).

ES 483 Structural Geology UG

This course consists of a study of the architecture of the earth as related to rock structures, their origin, and description. Prerequisite: ES 181 (Physical Geology U). 3 semester hours credit. (F 68).

ES 484 Geomorphology UG

Emphasis will be placed on a study of the relationships between gradational and tectonic forces and the resulting surface configuration of the earth. Prerequisite: ES 181 (Physical Geology U), ES 182 (Physical Geography UG). 3 semester hours credit. (F 67, 69).

ES 502 Conservation of Natural Resources G

This course is devoted to a detailed examination of the occurrence, exploitation and conservation of natural resources, including minerals, soils, water, forests, grasslands, fisheries, wildlife, recreation areas and scenery. Public and private conservation policy is examined against current technical and philosophical developments. Emphasis is placed on conservation in the United States. Prerequisite: ES 200 (Fundamentals of Geography U), and ES 252 (Geography

of Anglo-America UG), or ES 181 (Physical Geology U) and ES 182 (Physical Geography UG) and permission for undergraduates. 3 semester hours credit. (S 69).

ES 504 Geography of USSR G

The geography of environment, resources and population are studied in relation to history and the present economic and social system of the Soviet Union.

ES 581, 582 Investigating the Earth--Earth Science Curriculum Project G (NSF)

An introduction to the teaching of earth science at the secondary school level using the methods and materials developed by the Earth Science Curriculum Project. This course is open only to participants in the National Science Foundation In-Service Institute. 3 semester hours credit each semester. (F 67, S 68).

DEPARTMENT OF MATHEMATICS

Associate Professor Joseph Biggi Chiccarelli, Chairman

Associate Professor and Academic Dean: Lee Francis Harrington

Associate Professors: Robert Elwood Lemos, Henry Myron Mailloux

Assistant Professors: Murray Abramson, Robert Joseph Bent, Michael Makokian, Donald Clayton Simpson.

Instructors: Charles Edwin Carr, Walter Joseph Gleason, Frank Joseph Lambiase.

Visiting Lecturers: Martin Joseph Badoian, Frank Paul Gifune, Patrick Soccorso.

MA 150 Modern Analytic Geometry UG

Coordinates, functions, graphs, the geometry of the straight line and conic sections, polar coordinates, vectors, planes, quadric surfaces, applications. 3 semester hours credit. (F 67, 68, 69; S 68, 69, 70).

MA 210 Calculus I UG

Course includes inequalities, relations, functions, limits and continuity, the differentiation of algebraic functions, with applications to geometry, maxima and minima. Prerequisites: MA 106 (College Mathematics II U) or MA 111 (Precalculus Mathematics U); MA 150 (Modern Analytic Geometry UG), (concurrently), or equivalent. 3 semester hours credit. (Every Term).

MA 211 Calculus II UG

This course is a continuation of Calculus I. The definite integral, differentiation and integration of the trigonometric and exponential functions, methods of integration, applications. Prerequisite: MA 210 (Calculus I UG), or equivalent. 3 semester hours credit. (Every Term).

MA 212 Calculus III UG

This course is a continuation of Calculus II. Methods of integration and applications, partial differentiation, infinite series, multiple integration, applications. Prerequisite: MA 211 (Calculus II UG), or equivalent. 3 semester hours credit. (Every Term).

MA 301 Abstract Algebra I UG

Introduction to the theory of rings, integral domains and fields through a study of integers, rational numbers, real numbers, complex numbers and polynomials; elementary group theory. 3 semester hours credit. (S 68; F 68; SS 70).

MA 302 Linear Algebra I UG

Vectors and analytic geometry of space, vector spaces, systems of linear equations, determinants, linear transformations, and matrices. 3 semester hours credit. (F 67, 69; SS 69).

MA 303 Linear Algebra II UG

Linear transformations and matrices, the algebra of matrices, bilinear and quadratic forms, polynomial rings, characteristic values and vectors of linear transformations, similarity of matrices, applications. Prerequisite: MA 302 (Linear Algebra I UG), or equivalent. 3 semester hours credit. (S 68, 70).

MA 310 Number Theory UG

Development of the number system, the Euclidean Algorithm and its consequences, theory of congruences, number-theoretic functions, Diophantine equations, quadratic residues. 3 semester hours credit. (S 68; F 68; SS 69, 70).

MA 315 Differential Equations UG

Ordinary differential equations of first and second order, linear differential equations with constant coefficients, the Laplace transform, applications. Prerequisite: MA 212 (Calculus III UG), or equivalent. 3 semester hours credit. (S 68; F 68; SS 70).

MA 325 Foundations of Geometry UG

A study of axiomatic systems, finite geometries, axiomatic Euclidean geometry, various non-Euclidean geometries, Klein's Erlangen program, transformation groups, invariant properties. 3 semester hours credit. (SS 68; F 69).

MA 326 Projective Geometry UG

The principle of duality, perspectivity, projectivity, harmonic sets, cross ratio, transformation groups, projective theory of conics. 3 semester hours credit. (S 69, 70).

MA 331 Theory of Sets and Elementary Logic UG

This course includes truth tables, rules of inference, method of proof, the algebra of sets and graphs of functions, cardinal numbers. Prerequisite: MA 211. 3 semester hours credit. (SS 68; S 69, 70).

MA 332 History of Mathematics UG

The development of elementary mathematics from ancient to modern times. 3 semester hours credit. (F 67; S 69, 70).

MA 350 Fundamental Concepts of Mathematics UG

An introduction to the most fundamental concepts of analysis, geometry, and algebra. Basic elements of set theory, a survey of the real and complex number systems, topics from number theory, permutations and combinations, plane analytic geometry, functions, sequences. 3 semester hours credit. (Every Term).

MA 351 Modern Mathematics for Elementary School Teachers I UG

The objective of this course is to provide minimum background in modern mathematics for teachers of grades 4, 5, 6. This course will be devoted to a study of base positional notation and arithmetic of different bases, elementary set theory and logic, the real number system and its subsystems. 3 semester hours credit. (Every Term).

MA 352 Modern Mathematics for Elementary School Teachers II UG

This course is designed for additional background in modern mathematics for teachers who have successfully completed the Level I course or its equivalent. This course will be devoted to a continuation of the study of the number systems of arithmetic and their applications to algebra and informal geometry. 3 semester hours credit. (Every Term).

MA 353 Modern Algebra for Elementary School Teachers UG

The integers, integral domains, and topics from number theory; equivalence relations and congruences; real numbers, complex numbers, and fields; polynomials, group theory. Prerequisites: MA 351 (Modern Mathematics for Elementary School Teachers IUG); MA 352 (Modern Mathematics for Elementary School Teachers II UG), or equivalent. 3 semester hours credit. (F 67; SS 68, 69).

MA 354 Modern Geometry for Elementary School Teachers UG

Plane geometric figures, curves and surfaces, congruence, measures, coordinate geometry, parallelism and similarity, non-Euclidean geometries. Prerequisites: MA 351 (Modern Mathematics for Elementary School Teachers I UG); MA 352 (Modern Mathematics for Elementary School Teachers II UG), or equivalent. 3 semester hours credit. (F 68; SS 70).

MA 355 Probability and Statistics for Elementary School Teachers UG

Permutations and combinations, finite sample spaces, random variables, binomial distributions, statistical applications. Prerequisites: MA 351 (Modern Mathematics for Elementary School Teachers I UG); MA 352 (Modern Mathematics for Elementary School Teachers II UG), or equivalent. 3 semester hours credit. (S 68, 69; F 69).

MA 356 Calculus for Elementary School Teachers UG

Graphs and curves, functions, differentiation and integration of algebraic and transcendental functions, applications. Prerequisites: MA 351 (Modern Mathematics for Elementary School Teachers I UG); MA 352 (Modern Mathematics for Elementary School Teachers II UG). 3 semester hours credit. (S 70).

MA 421 Advanced Calculus I UG

The course includes fundamental theorems on limits and continuity, properties of derivatives, theory of integration. Prerequisite: MA 212 (Calculus III UG), or equivalent. 3 semester hours credit. (F 68).

MA 422 Advanced Calculus II UG

Course includes functions of several variables, partial derivatives, multiple integrals, sequences and series. Prerequisite: MA 421 (Advanced Calculus I UG), or equivalent. 3 semester hours credit. (S 69).

MA 425 Probability Theory UG

Permutations and combinations, calculus of probabilities, discrete and continuous random variables, expectation, elementary probability distributions, methods of estimation, sample spaces. Prerequisite:

MA 212 (Calculus III UG), or equivalent. 3 semester hours credit. (F 67, 69).

MA 426 Mathematical Statistics UG

Fundamental statistical methods, tests of significances and estimation based on large or small samples, simple correlation, linear regression, statistical inference, sequential analysis. Prerequisite: MA 425 (Probability Theory UG), or equivalent. 3 semester hours credit. (S 68, 70).

MA 430 Topology UG

The elements of point set topology: closed sets and open sets in metric spaces, continuous mappings, connection, separation theorems and homotopy, applications. Prerequisite: MA 212 (Calculus III UG), or equivalent. 3 semester hours credit. (F 67; S 69).

MA 440 Complex Analysis I UG

Analytic functions of a complex variable, differentiation and integration in the complex plane, Cauchy's theorems, infinite series, Laurent expansions, theory of residues. Prerequisites: MA 421 (Advanced Calculus I UG); MA 422 (Advanced Calculus II UG), or equivalent. 3 semester hours credit. (S 68; F 69).

MA 460 Integral Equations UG

Integral equations of the first and second kind, Fredholm theory, systems of orthogonal functions, Hilbert Schmidt theory, applications. Prerequisite: MA 212 (Calculus III UG), or equivalent. 3 semester hours credit. (SS 69).

MA 465 Applied Mathematics UG

The partial differential equations of physics, orthogonal functions, integral transforms. Prerequisite: MA 212 (Calculus III UG), or equivalent. 3 semester hours credit. (SS 68).

MA 510 Abstract Algebra II G

Group theory, modules and ideals, extensions of rings and fields, Galois theory. Prerequisite: MA 301 (Abstract Algebra I G), or equivalent. 3 semester hours credit. (S 69).

MA 530 Ordinary Differential Equations G

Existence and uniqueness theorems, methods of undetermined coefficients and variation of parameters, first order equations of higher degree, special second-order equations with variable coefficients, series solutions. Prerequisites: MA 315 (Differential Equations

UG); MA 421 (Advanced Calculus I UG); MA 422 (Advanced Calculus II UG), or equivalent. 3 semester hours credit. (SS 70).

MA 540 Complex Analysis II G

Further topics in the theory of functions and their power series representations, conformal mapping, analytic continuation, Riemann surfaces, entire functions, doubly periodic functions. Prerequisite: MA 440 (Complex Analysis I UG), or equivalent. 3 semester hours credit. (S 70).

MA 550 Real Analysis G

An introduction to the theory of functions of a real variable, continuity, sequences and series, measurable functions, Lebesgue integration, Banach spaces, metric spaces. Prerequisites: MA 421 (Advanced Calculus I UG); MA 422 (Advanced Calculus II UG), or equivalent. 3 semester hours credit. (F 69).

MA 581 Abstract Algebra G (NSF)

A study of the structure of groups, rings, fields, polynomial forms and functions. Stress will be placed upon the understanding of these algebraic structures, and proper emphasis (especially with respect to the real number system) will be made to their possible introduction into high school courses. This course is open only to participants in the National Science Foundation In-Service Institute. 3 semester hours credit. (F 67).

MA 582 Linear Algebra G (NSF)

Vectors and analytic geometry of space, vector spaces, determinants, linear transformations and matrices, the algebra of matrices with applications to systems of linear equations, quadratic forms, and geometry. This course is open only to participants in the National Science Foundation In-Service Institute. 3 semester hours credit. (S 68).

DEPARTMENT OF PHYSICS

Associate Professor Richard Frank Calusdian, Chairman

Associate Professors: Raymond Lorenzo Blanchard, George Alexander Weygand.

Assistant Professor: John Wendel Swardstrom.

PH 243, 244 General Physics UG

A calculus-based study of the phenomena of mechanics, heat, sound,

electricity, magnetism, and light. Prerequisite: MA 102 (Calculus with Analytic Geometry I, II U); MA 201 (Calculus with Analytic Geometry III U); MA 202 (Differential Equations U), (Concurrently). PH 243 (General Physics UG) is prerequisite to PH 244 (General Physics UG). 4 semester hours credit. PH 243; (F 67, 68, 69); PH 244 (S 68, 69, 70; SS 67).

PH 385 Optics UG

After careful study of geometric optics, the student will be introduced to the wave theory of interference, diffraction, polarization, and double refraction, and to the propagation of light in dispersion media. Laboratory projects are included as a part of this course. Prerequisite: PH 243, 244 (General Physics UG). 3 semester hours credit. (F 68).

PH 386 Nucleonics UG

A study of nuclear instrumentation, the fission process and its applications, nuclear reactors, radiation shielding, radioactive waste disposal, and the application of nuclear technology to specific areas of the physical sciences. Prerequisite: PH 243, 244 (General Physics UG). 3 semester hours credit. (S 68, 70).

PH 387 Modern Physics UG

Atomic and nuclear structure, elementary particles, kinetic theory, relativity, quantum theory, introduction to quantum mechanics, and nuclear theory. Prerequisite: PH 243, 244 (General Physics UG). 3 semester hours credit. (F 67, 68, 69).

PH 388 Electricity and Magnetism UG

Electrostatic and magnetic theory, direct and alternating current circuits, introduction to Maxwell's equations and radiation. Prerequisite: PH 243, 244 (General Physics UG). 4 semester hours credit. (F 67, 68, 69).

PH 389 Mechanics UG

This course introduces the student to a vector treatment of mechanics: forces and moments; kinematics and dynamics of point masses and of rigid bodies; work, kinetic energy and potential energy; impulse and momentum; and mechanical vibrations. Prerequisite: PH 243, 244 (General Physics UG). 3 semester hours credit. (S 68, 69, 70).

PH 390 Research Problems in Physics UG

This course provides the opportunity for advanced students to investi-

gate individual topics not usually covered in the required curriculum. Prerequisite: permission of the department. Credit and hours to be arranged. (F 67, 68, 69; S 68, 69, 70).

PH 391 Solid State Physics UG

A discussion of modern ideas of the solid state as they apply to rheology, energy absorption and electrical and electromagnetic transmission. Prerequisite: PH 243, 244 (General Physics UG). 3 semester hours credit. (F 69).

PH 392 Electronics UG

Fundamentals of semiconductor and vacuum tube electronics will be presented and supported with physical principles. Laboratory experiments will provide a working understanding of electronic measurements and basic electronic circuits. Prerequisite: PH 243, 244 (General Physics UG). 3 semester hours credit. (S 68; SS 67).

PH 394 Quantum Mechanics UG

This course treats the historical and physical basis of quantum mechanics. Among the topics included are: the wave nature of matter; the uncertainty principle; wave functions; operators; expectation values of dynamical observables; the Schrodinger Equation. These concepts will be applied to the electron, the hydrogen atom, the multi-electron atoms and radiation. 3 semester hours credit. (S 68, 69, 70).

PH 397 Mathematical Physics UG

The purpose of this course is to develop the students' ability to solve many of the types of problems arising in modern physics and chemistry. Topics to be included are: Linear differential equations, vector analysis, partial differential equations, Sturm-Liouville theory, Fourier series, Laplace transform, and orthogonal functions. 3 semester hours credit. (F 68, 69, 70).

DIVISION OF PROFESSIONAL EDUCATION

Dr. Stanley Luther Clement, Director

The Division of Professional Education is comprised of the Departments of Education, Instructional Media, Health and Physical Education for Men, Health and Physical Education for Women, and Library Science.

DEPARTMENT OF EDUCATION

Professor Stanley Luther Clement, Chairman

Professor and Dean of Undergraduate Studies: Vincent James DiNardo

Professors: John Frazier MacDonnell, Robert Douglas MacCurdy,
Ellen Marie Shea.

Associate Professors: John Peter Deasy, Philip Ryan Dooley,
Evelyn Ruth Lindquist, Mercia Carter Pike, Doris Margaret
Sprague.

Assistant Professors: Anthony Vincent DeLeo, Henry Joseph Fanning,
Jr., James Frank Francis, Ruth Gamson, Paul Francis Kelley,
John Joseph Kent, Rita Kohler Nadal, Dorothy Ellsworth Wood,
Vincent James Worden.

Instructors: Margaret Eleanor Farrell, Mary Leota Marks.

Visiting Lecturers: Barbara Philips Aalto, Warren Benson, Margaret Rose Brayton, William Joseph Casey, Angelo Alexander Cialdea, John Donato DiSanto, Lawrence Doyle, Robert Fox, Richard Gray, Christie Hayden, Williston Holbert, Grace Doris Keenan, Archibald Kelly, Joseph Kunces, Robert Leo Lavoie, Edward Joseph Lynch, Charles Manos, John Mc Garigal, True-man John Menadue, Robert O'Donnell, Vernon Eugene Oldham, Joseph Plouffe, Francis Patrick Powers, Robert Prendergast, William Quinlan, John Marshall Shaw, Louis Joseph Sherman, Elizabeth Tormey.

Administration

ED 560 Principles and Practices in School Administration G

A basic introduction to the principles of school administration. Administration will first be examined as a profession. The administrative process will be developed and used in class work and course projects. Administrative problems will be identified in the areas of program, services, plant, facilities, personnel and public relations. Guiding principles will be established for the solutions of these problems with emphasis also on common practices, trends, proposals and issues. The course provides the foundation and is a prerequisite for further courses in administration. 3 semester hours credit. (Every term)

ED 561 Elementary School Administration G

The emphasis in this course will be upon the application of the general principles of school administration to the solution of the specific problems of the elementary school. Emphasis will be placed

on the areas of elementary program, plant, services, pupil control and accounting, personnel and public relations. Prerequisite: ED 560 (Principles and Practices in School Administration) 3 semester hours credit. (S 68, 70; F 68; SS 69)

ED 562 Secondary School Administration G

The emphasis in this course will be upon the application of the general principles of school administration to the solution of the specific problems of the secondary school. Emphasis will be placed on the areas of secondary program, plant, services, pupil control and accounting, personnel and public relations. Prerequisite: ED 560 (Principles and Practices in School Administration) 3 semester hours credit. (F 67, 69; SS 68, 70; S 69)

ED 563 Personnel Administration in Public Schools G

A treatment of the nature, development, and importance of personnel administration and the general principles, preparation and procedures for its implementation. Special topics will include selection, orientation, assignment, supervision, rating and the establishment of the type of morale essential for the most effective teaching-learning atmosphere. Prerequisite: ED 560 (Principles and Practices in School Administration) 3 semester hours credit. (F 67, 69; SS 68, 70; S 69)

ED 564 Public School Supervision G

A fundamental course in school district supervision. The philosophy and function of supervision will be explored together with the roles of the various staff members responsible for supervision in a modern public school district. Consideration will be given to supervision at the various grade levels. Prerequisite: ED 560 (Principles and Practices in School Administration), ED 561 (Elementary School Administration) or ED 562 (Secondary School Administration) 3 semester hours credit. (F 67, 69; SS 68, 70, S 69)

ED 565 School Finance and Business Administration G

This course will be based upon a study of the financial support for public schools from local, state, and federal governments. School budgets, accounting, and purchasing procedures, distribution of supplies and services, transportation, food service, management and maintenance of the school plant will be given consideration. Prerequisite: ED 560 (Principles and Practices in School Administration) 3 semester hours credit. (S 68, 70; F 68; SS 69)

ED 566 School Plant Administration G

This course is intended for the specialist in school administration, the person who may ultimately go on to school district administra-

tion as an assistant superintendent, business assistant, director of buildings and grounds or superintendent. The students will consider in depth the many factors involved in planning, construction, maintaining and administering the modern school plant. Prerequisite: ED 560 (Principles and Practices in School Administration), ED 561 (Elementary School Administration) or ED 562 (Secondary School Administration) 3 semester hours credit. (S 68, 70; F 68; SS 69)

ED 567 Administration of the School Activity Program G

The total curriculum of the school may be divided into the Course of Studies, Pupil Personnel Services and the Activity Program. The emphasis in this course will be upon the latter: purposes and objectives, nature and organization, types of control, values and results, the relation to other curricular areas, criteria of selection and methods of evaluation of sponsors, and student involvement. The course should be of particular interest to those students preparing for the administrative position of Assistant Principal. 3 semester hours credit. (F 67, 69; SS 68, 70; S 69)

ED 568 Seminar in Problems of School Administration G

This seminar is intended as a final professional course for administration majors. It will include study and analysis of current problems and issues in elementary and secondary school administration. Students will seek solutions to these problems through reading and research. Results will be presented to the class as a whole. Prerequisite: Twenty-four (24) credit hours must be completed toward the Master's Degree in School Administration including five (5) other Administration courses. Consent of major advisor is also necessary. 3 semester hours credit. (S 68, 70; F 68; SS 69)

ED 569 Legal Aspects of School Administration G

A general overall view of school law and its implications for those involved in education - administrators, teachers, pupils and parents. Federal and state powers and functions relative to education will be covered with emphasis on the application of Massachusetts laws. Precedent setting legal cases will be discussed. Special topics will include: religion, desegregation, contracts, and tenure. The organization, function, duties, and operation of the local school committee will be emphasized. 3 semester hours credit. (Every term)

Elementary Education

ED 340 Methods and Materials in Elementary Language Arts UG

Stress is on providing for child growth in oral and written communication through developing the skills of spelling, oral language, and written language. Topics covered are 1. objectives of the program; 2. knowledge and diagnosis of needs and instructional problems; 3.

provision for individual differences through the selection and effective use of varied general and specific techniques and materials; 4. correlation of English with other subject areas; and 5. using varied instruments for evaluating and measuring materials and results. 3 semester hours credit. (Every Term).

ED 350 Methods and Materials in Elementary School Mathematics UG

Through this course students become acquainted with the purpose and content of the contemporary elementary school mathematics curriculum. Emphasis is placed on a study of a wide variety of effective teaching procedures and instructional materials designed to meet the varying abilities within the elementary school classroom. Prerequisite: MA 321 (Modern Mathematics for Elementary School Teachers UG) or MA 107 (College Mathematics for Elementary Majors I) or Permission of the Instructor. 3 semester hours credit. (Every Term).

ED 360 Methods and Materials in Elementary Music UG

A treatment of the music program in the elementary grades including objectives, personnel, planning and the music course of study, pupil characteristics and meeting of individual differences, rhythmic activities, music reading, listening to music, creative music, and general procedures, equipment and materials. 3 semester hours credit. (F 67, 69; S 69; SS 68, 70).

ED 362 Methods and Materials in Elementary Art UG

Emphasis will be placed on the objectives of Art education in the public school curriculum; the role of the classroom teacher in carrying out this program; the nature of the developmental stages in the creative growth of children; the materials, processes, tools and teaching procedures which will foster this growth at the various grade levels; correlation of art with other subject fields; and evaluation of student progress. 3 semester hours credit. (S 68, 70; F 68; SS 69).

*ED 370 Kindergarten Theory and Methods UG**

This course treats the philosophy, importance and development of pre-school education. Opportunity is given for the study of how children learn to live together and gain the experience which will lay the foundation for a feeling of adequacy in a group and the new role of school with rich experiences. Curriculum, methods, materials and facilities are examined and evaluated. 3 semester hours credit. (F 67, 69; S 69; SS 68, 70).

ED 374 Methods and Materials in Primary Education UG

This course emphasizes the philosophy and importance of education in the primary grades and presents effective ways of vitalizing the teaching process at this level. Appropriate curriculum, methods,

materials and facilities will be examined and evaluated. 3 semester hours credit. (S 68, 70; F 68; SS 69).

ED 450 Elementary School Curriculum UG

This course will include the roles of the administrator, the teacher, the parent, and the child in the development of the curriculum in the elementary school. Other topics which will be presented are: the challenge of change, new trends in the curricular areas, elementary school organization including team teaching and the ungraded school, availability of new materials, the basic needs of children, the maintenance of democratic values in the elementary classroom, and evaluating elementary school goals. 3 semester hours credit. (Every Term).

ED 452 Methods and Materials in Elementary Education UG

This course is designed to present effective ways of vitalizing the teaching-learning process through challenging learning experiences which emphasize teacher-pupil planning, participation and evaluation. Resource persons, lectures, readings, reports, discussions, demonstration lessons, and displays of materials will be used to show what can be done to adapt the program and procedures of the elementary school to provide for individual differences in the teaching of content subjects. 3 semester hours credit. (Every Term).

ED 460 Methods and Materials in Elementary Science UG

This course will acquaint students with the goals of elementary science instruction and the methods of attaining these aims through such experiences as problem-solving, experimenting, observing, participating in field trips, and other essential activities. An examination will be made of new elementary science programs, current elementary science textbooks, films, and scientific equipment. 3 semester hours credit. (S 68, 70; F 68; SS 69).

ED 470 Methods and Materials in Elementary Social Studies UG

Emphasis is placed on current trends in the social studies curriculum including the following topics: 1. objectives in social studies instruction; 2. child growth and development characteristics and their implications in teaching; 3. organization of the program; 4. creative pupil-teacher planning; 5. teaching techniques using varied instructional materials and procedures; and 6. evaluating child growth, methods and materials, and the achievement of objectives. 3 semester hours credit. (F 67, 69; S 69; SS 68, 70).

ED 554 Seminar in Elementary Education G

This course is intended to effect an integration among the following

factors: 1. the graduate student's formal studies in the Master of Education program; 2. his knowledge of current research relating to curriculum, methods, materials, and evaluation in elementary education, and 3. his personal experience in teaching and education. Each student will make an extensive study of a significant problem in elementary teaching. Prerequisite: Completion of 24 hours toward the master's degree including 12 hours in Elementary Education. 3 semester hours credit. (S 68, 70; SS 69; F 68).

General Education

ED 400 History of American Education UG

This course is designed to provide the historical foundation by which the student may better understand the educational issues of the present and intelligently help plan future directions and goals. A study will be made of the origin and development of our American system of education at all levels. Changes in objectives, organization, control, support, curriculum and methods will be noted. The effect of various movements on the education program will be identified as to cause, characteristics, and influence. Current trends and tendencies for the future will be discussed. 3 semester hours credit. (SS 68; F 69).

ED 401 Comparative Education UG

A study will be made of the educational systems in other countries with emphasis on Europe. After an identification of the culture of a country, special topics will include: development, control, support, objectives, organizational pattern, curriculum, teachers, methods, special services and trends. International educational and cultural programs will also be discussed. 3 semester hours credit. (S 68; SS 69).

ED 402 Team Teaching UG

Emphasis will be placed on the nature, objectives, and development of the team teaching idea; its organization, team makeup, planning and instruction; student grouping and scheduling; facilities, materials and equipment; instruction and adaptation to existing conditions; the ungraded school; and team teaching and the community. 3 semester hours credit. (F 68; S 70).

ED 403 Professional Ethics UG

The heart of this course will be the ethical principles upon which the Education Profession is based, those standards which should guide professional service in a moral not legal sense. Emphasis will include: criteria of a profession as applied to teaching; responsibility and privileges of the profession; codes of ethics - nature, formation, interpretation, application, and enforcement; professional organiza-

tions - purpose, organization and achievements; relation of the professional role to private life; and interpretation of specific current situations including those suggested by class members. 3 semester hours credit. (F 67; S 69; SS 70).

ED 420 Educational Measurement UG

Included in this course is an examination of the development of the testing, measurement, and evaluation movement. A review and evaluation of tests and other evaluative methods needed for the measurement of mental maturity and educational growth in the student's field of specialization, and a study of elementary statistical procedures necessary for their interpretation, complete the course offerings. 3 semester hours credit. (Every Term).

ED 480 Philosophy of Education UG

Through research and discussion, students are expected to analyze and relate the metaphysical, epistemological, ethical, and social theories of philosophy to educational theories and practices. Prerequisite: PL 380 (Introduction to General Philosophy U). 3 semester hours credit. (Every Term).

ED 500 Research and Evaluation G

This course will stress the use of appropriate research methods in the selection and evaluation of data. It is designed to aid the graduate student in the preparation and understanding of research reports. Major areas of emphasis will include the nature of and criteria for evaluating research, library techniques and resources, selection and delimitation of problems, appraisal of research literature, documentation, organization and format of a report, necessary statistical concepts and methods of research. The student will be expected to demonstrate his knowledge of these in a term research study. 3 semester hours credit. (Every Term).

ED 520 Psychological Foundations of Education G

This course involves an advanced systematic exploration of the various psychological principles related to teaching with special emphasis upon application of these principles in specific classroom situations. Special treatment will be given to social psychology, dynamics in interpersonal relationships and group processes, motivation, and discipline theory. Prerequisite: PY 200 (General Psychology U); and one of the following: PY 224 (Child Growth and Development U), PY 226 (Adolescent Psychology U), or PY 222 (Psychology of Learning UG). 3 semester hours credit. (Every Term).

ED 522 Measurement of Intelligence - Binet G

This course is designed to acquaint students with the administration,

scoring and interpretation of the Binet Intelligence Test. The purpose of this course is two-fold: (1) To expose students to the theories and functioning of Intelligence as set forth by Simon Binet, Lewis Terman and Maud A. Merrill; (2) To train students to become qualified Stanford-Binet Examiners. Prerequisite: PY 200 (General Psychology U); PY 222 Psychology of Learning UG); ED 420 (Educational Measurement UG). 3 semester hours credit. (Every Term)

ED 524 Measurement of Intelligence - WAIS & WISC G

This course is designed to acquaint students with the administration, scoring and interpretation of the Wechsler Intelligence Scales. The purpose of this course is two-fold: (1) To expose students to the theories and functioning of Intelligence as set forth by David Wechsler; (2) To train students to become qualified WAIS and WISC examiners. Prerequisite: PY 200 (General Psychology U); ED 520 (Psychological Foundations of Education G); ED 420 (Educational Measurement UG); ED 522 (Measurement of Intelligence - Binet - G). 3 semester hours credit. (Every Term)

ED 580 Philosophical Foundations of Education G

Drawing upon the student's background in philosophy and philosophy of education, the course is designed to develop a close acquaintance with the major schools of western philosophy; i.e., realism, idealism, neo-Thomism, experimentalism, and existentialism, and to determine their relationship to current philosophies and practices. Prerequisite: ED 480 (Philosophy of Education UG). 3 semester hours credit. (Every Term).

Guidance

ED 430 Principles and Practices in Guidance UG

This is an introductory course designed to provide the student with an understanding of the need, meaning, and scope of guidance services. The principles and practices involved in the following guidance areas will be considered: introduction and philosophy of guidance; understanding the individual and his needs; essential orientation activities for the student; collection, recording, and evaluating data; interviewing and counseling; guidance through group activities; placement and follow-up activities; organization and evaluation of guidance. The emphasis of the course will be upon the role of the classroom teacher in the guidance program. 3 semester hours credit. (Every Term).

ED 530 Counseling Theory and Practice G

Emphasis will be placed on the principles of counseling and the application of the basic techniques to the counseling process. The roles of both guidance personnel and teachers will be stressed. Case

studies will be used and situational problems discussed. Prerequisite: ED 430 (Principles and Practices in Guidance). 3 semester hours credit. (Every Term).

ED 531 Organization and Administration of Guidance Programs G

This course will deal with the procedures for creating and operating a program of guidance services as part of the public school education. It will identify the basic principles and practices common to all guidance programs and show how guidance services and activities are, and can be, adapted, organized, and administered to serve school pupils, their parents, teachers, and administrators. The course will give special attention to immediate NDEA Act applications. Prerequisite: ED 430 (Principles and Practices in Guidance UG). 3 semester hours credit. (S 68, 70; F 68; SS 69).

ED 532 Practicum in Counseling G

Emphasis will be on the practice of counseling. Multiple counseling sessions using tapes will be emphasized. Supervised observation will be included to help measure individual assessment of growth and competence. Prerequisite: ED 530 (Counseling Theory and Practice G). 3 semester hours credit. (S 68, 70; F 68; SS 69).

ED 533 Psychological Tests in Guidance G

The aim of the course is to introduce the school counselor to the basic principles of psychological testing and to study, in depth, the most commonly used instruments for assessing intelligence achievement, aptitude, interest and personality. Prerequisite: ED 430 (Principles and Practices in Guidance UG); ED 420 (Educational Measurement UG). 3 semester hours credit. (F 67, 69; S 69; SS 68, 70).

ED 534 Educational and Vocational Information G

This course is offered for teachers and counselors as a study in the methods of presenting occupational and educational information in formal guidance programs and in units on vocations in subject matter classes. Consideration will be given to an evaluation of materials and techniques in terms of practical use. Materials of educational information will be considered and collected. The student will begin an individual library of educational information and will construct a 10 lesson unit of educational information to be placed in a subject matter class. Other assignments will explore individual situations and include recommendations in the light of acceptable methods. Prerequisite: ED 430 (Principles and Practices in Guidance UG). 3 semester hours credit. (S 68, 70; SS 69; F 68).

ED 535 Principles and Practices in Placement G

This course will consider the methods and materials used in place-

ment in educational programs beyond secondary school, in public schools grades 1-12, in private schools, and in pre-primary schools. Students will evaluate the various approaches to in-school needs of children and specifically the role of guidance personnel as members of the educational team in the satisfactions of these needs. Objective testing programs as they pertain to academic placement will be considered. Prerequisite: ED 430 (Principles and Practices in Guidance UG). 3 semester hours credit. (F 67, 69; S 69; SS 68, 70).

Reading

ED 330 Teaching of Reading in the Elementary School UG

This course will consider how reading instruction is initiated, how basic reading abilities are developed, and how growth in voluntary reading is encouraged. The essentials of an effective developmental reading program will be examined with attention to organizing reading groups and evaluating progress. 3 semester hours credit. (Every Term).

ED 331 Developmental Reading in the Secondary School UG

This course will provide a study of the characteristics, techniques of teaching, administration, and evaluation of modern reading materials available. Actual reading laboratory demonstrations will be performed by both instructors and students. The course is designed for all teachers who wish a fresh viewpoint and for those new in the field as well as for those concerned with initiating, organizing, or updating a reading program. 3 semester hours credit. (F 67, 69; S 69; SS 68, 70).

ED 332 Diagnosis and Correction of Reading Difficulties UG

Emphasis will be placed on the objectives, organization and carrying out of individual and small group remedial-reading instruction in an average school situation without special facilities or elaborate equipment. Determining pupil reading difficulties, selecting appropriate techniques and materials, and evaluation of progress will be stressed. An opportunity will be provided to teach small groups of high school pupils in need of remedial instruction. Prerequisite: ED 200 (General Psychology U); ED 330 (Teaching of Reading in the Elementary School UG); and permission of the Instructor. 6 semester hours credit. (SS 68, 69, 70; F 68 and S 69).

ED 543 Improving Reading Instruction G

This course will undertake an examination of current and evolving practices and programs in the teaching of reading. Teachers, reading specialists, and administrators will be helped to develop practical plans for insuring that their own reading programs successfully meet the needs of all their students. Prerequisite: ED 330 (Teaching of Reading in the Elementary School UG). 3 semester hours credit. (F 67, 69).

ED 544 Seminar in Reading and Language G

The primary concern of this course will be the application of research methods and findings to the improvement of all aspects of reading and language instruction. Each student will make an extensive study of a significant problem related to the teaching of oral expression, written expression, reading, spelling or handwriting. Prerequisite: ED 330 (Teaching Reading in the Elementary School UG). 3 semester hours credit. (S 68, 70).

Secondary Education

ED 312 Teaching Social Studies in the Secondary School UG
(F 67, 69; SS 68, 70; S 69)

ED 314 Teaching English in the Secondary School UG
(S 68, 70; F 68; SS 69)

ED 316 Teaching Earth Science in the Secondary School – Geology UG
(S 68; SS 69)

ED 317 Teaching Earth Science in the Secondary School – Geography UG
(SS 68; F 69)

ED 318 Teaching Physical Science in the Secondary School UG
(F 67, 69; SS 68, 70; S 69)

ED 320 Teaching Biological Sciences in the Secondary School UG
(F 67; S 69; SS 70)

ED 322 Teaching Mathematics in the Secondary School UG
(S 68, 70; F 68; SS 69)

ED 324 Teaching Modern Foreign Language in Secondary School UG
(F 68; S 70)

The above courses are comparable in purpose and design, differing as application is made to a particular subject field. The main emphasis will be on the establishing of objectives, the choosing of appropriate content, procedures, and materials, and the techniques of planning necessary to accomplish the objectives. Other topics will include classroom organization and management, meeting of individual differences, evaluation and reporting of progress, and recent develop-

ments in methodology and subject matter. 3 semester hours credit for each course.

ED 326 Teaching Business in the Secondary School UG

The purpose of this course is to survey the basic objectives, terminology, standards of achievement, and lesson planning in Business Education. Other areas to be studied will include methodology in teaching the basic skills as well as the improvement of instruction in the basic business subjects through the use of audio-visual aids. 3 semester hours credit. (F 67, 68, 69)

ED 328 Curriculum in Business Education UG

A study of the purposes of modern business education and the program of activity necessary to implement them. Emphasis will be placed on the development, organization, administration, and supervision of the program; current trends, problems, and issues; the effect of automation; and staff participation in the evaluation and revision of the business curriculum and the construction of courses of study. 3 semester hours credit. (S 68, 69, 70)

ED 440 Methods and Materials in Secondary Education UG

Emphasis will be placed on the analysis of the theory and practice of teaching in the modern secondary school. Topics will include: the learning process--principles and application; establishing of objectives; classroom organization and management; meeting individual differences; evaluation and reporting progress; correlation between subject matter fields; and recent developments in methodology and subject matter. This course is designed primarily for those interested in gaining certification, undergraduates with no teaching experience, and prospective teachers who have been away from the classroom for many years. Students currently employed as teachers are strongly advised to select a methods course in their particular discipline. 3 semester hours credit. (Every Term)

ED 443 Secondary School Curriculum UG

Emphasis is placed on the purposes of modern secondary school education and the essential features of the curriculum needed to implement them. Topics will include: organization, historical development, factors affecting trends and issues, core curriculum, planning curriculum guides and organization; and participation in curriculum evaluation and revision. 3 semester hours credit. (Every Term)

Special Education

ED 410 Introduction to Special Education UG

This is a survey of all phases of special education emphasizing the

program for mentally and physically handicapped children, for emotionally disturbed children and for the academically talented. The slow learner and the perceptually handicapped will receive consideration. 3 semester hours credit. (S 68, 70; F 68; SS 69)

ED 411 Methods and Materials in Special Education UG

In this course special emphasis will be placed on the philosophy, the general and specific aims, the identification and classification, and the curriculum development of the educational program for retarded children. The planning, developing, and guiding of pupil experiences will help to attain the desired pupil outcomes through the functional application of subject matter. Prerequisite: ED 410 (Introduction to Special Education UG). 3 semester hours credit. (F 67, 69; SS 68, 70; S 69)

ED 412 Organization and Administration of Special Education UG

The purpose of this course is to meet organizational and administrative problems in the implementation of a comprehensive special education program especially for the mentally retarded. A complete study of the psychological services, the classroom, the teaching personnel, the required individual pupil case summary data, the curriculum, and the classroom management will be included. Other aspects of special education will receive consideration. Prerequisite: ED 410 (Introduction to Special Education UG). 3 semester hours credit. (S 68, 70; F 68; SS 69)

ED 413 Industrial Arts in Special Education UG

This course gives the teacher the opportunity to work with the various materials necessary for an adequate handwork program. The planning procedure, the necessary equipment, and the successful operation of such a program will be studied to insure the necessary goals being achieved. The requirements for certification of the special class teacher for teaching the mentally retarded are included. 3 semester hours credit. (F 67, 69; SS 68, 70; S 69)

ED 414 Domestic Arts in Special Education UG

In this course emphasis will be placed upon teaching the basic principles of nutrition for planning, preparing, and serving meals for the individual and family; principles of management in the home; management of money; time, and labor-saving equipment, simple home nursing and child care and aesthetic experience in personal appearance and clothing. 3 semester hours credit. (F 68; S 70)

ED 415 Methods and Materials for the Gifted Learner UG

The purpose of this course is to understand the needs of the academi-

cally talented with basic philosophy which will help them to realize their potential. Emphasis will be placed on identification, classification, evaluation, curriculum, methods and materials for the special classroom. The problems of motivation, of underachievement, and of creativity will be stressed. Prerequisite: PY 200 (General Psychology U). 3 semester hours credit. (F 67, 69; SS 68, 70; S 69)

ED 416 Teaching the Slow Learner UG

This course is designed to give practical suggestions to the teacher for meeting the needs of the slow learner. Emphasis is placed upon identification and classification, methods and materials, procedures, social and vocational adjustment and the structuring of the modern curriculum to provide adequate education for the slow learner. Prerequisite: PY 200 (General Psychology U). 3 semester hours credit. (S 68, 70; F 68; SS 69)

ED 417 Methods in Teaching Emotionally Disturbed Children UG

Emphasis will be on methods and materials necessary for a successful educational program for emotionally disturbed children including classroom facilities, curricula learning experiences and management. Prerequisite: ED 410 (Introduction to Special Education UG). 3 semester hours credit. (S 68; SS 69)

ED 418 Etiology, Dynamics, and Treatment of Emotional Disturbance in Children UG

Emphasis will be on the complete background of the causes, characteristics, and behavioral aspects of emotionally disturbed children including the new syndromes resulting from recent research. Study will be made of mental health clinics as the primary community resource involved. 3 semester hours credit. (F 67; S 69; SS 70)

DEPARTMENT OF HEALTH AND PHYSICAL EDUCATION FOR MEN

Associate Professor Harry August Lehmann, Chairman

Associate Professor: Edward Carl Swenson.

Assistant Professor: Thomas Allen Knudson.

Instructors: David Paul Deep, Peter Mazzaferro.

HPE 424 Problems in Physical Education and Athletics UG

Course content includes the recognition, discussion and systematic analysis of controversial issues and problems. Among topics to be

studied are the optimum use of facilities, ethical practices, financing the program, relationships with non-school programs, interscholastic athletic competition below high school level, youth fitness, crowd control, injury prevention, program evaluation, and community organization for health, physical education and recreation. Particular attention is given to problems suggested by class members. 3 semester hours credit. (SS 68; F 69).

HPE 425 Care and Prevention of Athletic Injuries UG

A basic course to illustrate the methods of prevention, correction, care and treatment of athletic injuries. Training and conditioning programs will be studied. Class time will be devoted to lectures, discussions, and practical work. Taping and use of physical therapy equipment will be covered in the course content. 3 semester hours credit. (S 68, 69, 70).

HPE 426 Management of Athletics UG

This course involves the study of athletic policies and regulations on the local and state levels, administrative plans, contest management, the purchase and care of equipment, athletic awards, finance and budget, athletic facilities, scheduling, public relations, the intramural program, and trends in interscholastic athletics. Lectures, reading, class discussions, and written assignments will be directed toward the enrichment of the athletic programs in the school systems represented. 3 semester hours credit. (S 68; SS 69).

HPE 427 Public Relations in Physical Education UG

This course is designed to develop competencies in the area of public relations specifically for those engaged as teachers of physical education, coaches and athletic administrators and for those preparing for such positions. The course content will include the study of a public relations philosophy, the unique public relations aspects of the physical education program, specific and practical techniques, relationships with media personnel, relationships with the various internal and external publics, and the planning and preparation of annual reports, speeches, brochures, displays, demonstrations and press releases. Course projects are planned to help upgrade the public relations programs in the departments and schools represented. 3 semester hours credit. (F 67; S 69; SS 70).

HPE 434 Foundations of Physical Education UG

This course is concerned with the nature and scope of physical education. The course content includes the scientific foundations of physical education; the objectives and how they are best achieved; the philosophy of physical education as a part of total education; the relationship of physical education to health, recreation, camping and

outdoor education; the history of physical education; the qualifications and responsibilities of physical education personnel; and challenges and problems facing the physical education profession. The latest available materials and information from the President's Council on Physical Fitness will be included. 3 semester hours credit. (F 68; S 70).

HPE 435 Organization and Administration of Intramural Sports

Current practices, ideals, and methods of organizing and administering a program of intramural sports at all age levels. 3 semester hours credit. (SS 68, 69, 70).

HPE 436 Techniques in Coaching Football and Basketball

Discussion of offensive and defensive trends; methods of teaching of individual skills; organization and promotion of football and basketball. 3 semester hours credit. (SS 68, 69, 70).

DEPARTMENT OF HEALTH AND PHYSICAL EDUCATION FOR
WOMEN

Professor Mary Josephine Moriarty, Chairman

Assistant Professors: Patricia Ann Phillips, Mary Lou Thornburg.

Instructors: Ann Oldham Coakley, Regina Mary Gross, Shirley Jane Krasinski, Marjorie Atwood Rugen, Johanne Smith, Mildred Ragsdale Wellman, Carol Ann Wolfgram.

HPE 349 Methods of Teaching and Calling the Modern Square Dance UG

The modern square dance will be analyzed as to its make-up and place in the physical education curriculum. Basics, included in the modern square dance will be presented in progression. The techniques of teaching will be emphasized as students are taught to perform these fundamentals. As dances are not memorized in the modern square dance, the method of learning to call individual basics will be stressed and emphasis placed on the mechanics and function of each. Time will be spent on phrasing, timing, and voice. An analysis of square dance music as it relates to figure composition, as well as a simple method of composing dances, will be made. 3 semester hours credit. (S 68, 69, 70).

HPE 360 Organization of Girls' Intramural and Extramural Activities UG

Concerned with the construction of a balanced program of co-curricular activities based upon sound educational objectives implemented

with the current standards and guidelines established for the junior and senior high school girl. The role of the coach and officials are coordinated to bring about the best of educational experience for the participant. 3 semester hours credit. (S 70).

HPE 370 The Theory and Practice of Physical Education in the Elementary School UG

Content and organization of physical education throughout the elementary grades. Emphasis will be on preparation and teaching techniques for the classroom teacher, specialist and supervisor. A laboratory experience will be a required part of the course. 3 semester hours credit. (S 68, 69, 70).

HPE 380 Introduction to Recreation UG

Covers the history of recreation from colonial days to the present. Particular emphasis is placed on the cultural views and their relationship to recreation. The various types of recreation presently seen and the impact of leisure time on the future will also be discussed. 3 semester hours credit. (F 67, 69).

HRE 382 Programs in Recreation UG

This course deals with the fundamental aspects of program planning in Recreation. The programs of various agencies, both public and private, will be discussed. Items given special attention are: Senior Citizens Programs, Physical and Mental Retarded Programs and Pre-primary Programs. 3 semester hours credit. (S 68).

HPE 385 Nutrition and Fitness UG

The course will include information concerning fundamentals of nutrition, the relation of nutrition to cultural patterns, to dental health and to total health and fitness. Current nutrition problems will be discussed. Recent research in this area will be investigated. The New England Dairy and Food Council will assist in planning the course outline, will provide approved films, and suggest speakers. 3 semester hours credit. (F 68).

HPE 390 Philosophy and Principles of Physical Education UG

Discussion of facts and principles that serve to formulate a philosophy of physical education. Study of the relationship of physical education to general education. 3 semester hours credit. (F 67, 69).

HPE 395 Measurement and Evaluation in Physical Education UG

The construction and use of written tests, skill tests, and other measurement devices in physical education; methods of administration and use of data. 3 semester hours credit. (S 68).

HPE 455 First Aid UG

The content of this course will include lecture, discussions, and practices of first aid skills, leading to the completion of the Red Cross Standard and Advanced First Aid Certificates. The objectives will be to encourage good safety practices and attitudes; to prepare the individual to give first aid care to himself, his family and others. 3 semester hours credit. (F 67, 68, 69).

HPE 465 School Health Program UG

This course is designed to acquaint the elementary classroom teacher with the areas of the school health program: health services, health education and healthful school living. Emphasis will be placed on the objectives and goals of health education within and throughout the total school curriculum, organization of the school health services and basic issues and problems in school health. 3 semester hours credit. (F 67).

HPE 475 Community Health Education UG

This course is concerned with the history and development of public health programs, the relationship of health departments--local, state, and federal, public and private agencies, and the school health program. Problems and principles of the community health programs based on local needs will be considered. The course is designed for classroom teachers, health specialists, and others interested in community health. Prerequisite: a course in personal health education. 3 semester hours credit. (F 67, 69).

HPE 495 Health Problems UG

Current health problems related to the school and community will be presented. The school's responsibility for education in these areas will be discussed. 3 semester hours credit. (S 68, 69).

DEPARTMENT OF INSTRUCTIONAL MEDIA

Professor Henry Rosen, Chairman

Instructor: Thomas Lee.

AV 450 Techniques and Media of Audio Visual Instruction UG

This course is designed to improve instruction through the appropriate use of new techniques and media of communication and instruction in the classroom and/or in industry. The student learns the operation, care and repair of equipment, and sources of materials according to his personal needs. In addition, he experiments with lesson planning and application of techniques and media, and makes certain materials for efficient and applicable presentation in a teaching-learning situa-

tion. 3 semester hours credit. (F 67, 68, 69; S 68, 69, 70; SS 68, 69, 70).

AV 452 Photography in Education UG

This course is designed to give instruction in the basic philosophy, scope, educational planning, and techniques of preparation of photographic instructional materials. Preparation of color and black and white slides, stills, filmstrips, transparencies for overhead projection, and photography and darkroom techniques will be taught. 3 semester hours credit. (F 67, 68, 69; S 68, 69, 70; SS 68, 69, 70).

AV 453 School Public Relations UG

This course is designed to acquaint the teacher and the administrator with the responsibility of the school to the public. It is the purpose of this course to teach the necessity for a well-informed public to foster good school public relations. All necessary media will be discussed; radio, television, newspapers, magazines, school publications, teacher-parent and administrator-teacher-parent relationships. 3 semester hours credit. (SS 68, 69, 70).

AV 455 Projectual Technology for Instruction UG

This course is designed to give basic instruction in the philosophy, scope, educational planning, and techniques of the preparation and use of projectuals for instruction and education. The student will learn the graphic arts skills necessary for the preparation of overhead masters. He will also learn the techniques of exposing and developing overhead transparencies by the Diazo method utilizing equipment found in the school adaptable to this method. Students will also prepare materials by color lifting, Thermofax, Tecnifax, A-O, and will learn the basic techniques for copying 2 x 2 slides and layout procedures for filmstrips, both black and white and color. 3 semester hours credit. (SS 68, 69, 70).

DEPARTMENT OF LIBRARY SCIENCE

Associate Professor Beatrice Irene Bouchard, Chairman

Associate Professor: Cora May Vining.

Librarian: Owen Thomas McGowan.

Cataloguer: Mabell Susie Bates.

Instructor: Olive Lee, Adeline Dupuy Oakley.

Visiting Lecturers: Charles Waldron Adams, Helen Bogle Crawshaw,
Martha Catherine Engler, Diane Gertrude Farrell, James Stewart

Healey, Thomas Carol Higgins, Joan Sawyer Leland, Marion Jane Manthorne, Peter Simoglou.

LI 215 Literature for Children G

This course covers the reading interests of children from pre-school years through the elementary grades with emphasis on: the contribution that reading can make toward the process of growing up; criteria for evaluation and analysis of children's books; types of books available today, considered in terms of the needs, interests, and abilities of children. Topics covered are: history of literature for children; illustrators; folk-tales; myths; modern fanciful tales; fiction; poetry; books in special fields, such as, history, science, travel. 3 semester hours credit. (S 68, 69, 70; SS 68, 69, 70).

LI 225 Literature for Young Adults G

This course is a survey of literature for the adolescent designed for junior and senior high school teachers and librarians, and includes a brief history of the development of this literature, evaluation of publishers, and psychology of the adolescent reader. 3 semester hours credit. (F 67, 68, 69).

LI 404 Research and Evaluation in Library Science G

This course is an introduction to general reference literature and to basic procedures in meeting reference problems. The principles and practices of book selection are discussed, and acquaintance is made with bibliographies, periodicals, and other informational aids. 3 semester hours credit. (F 67, 68, 69).

LI 435 School Library Administration G

This course includes activities, techniques, and services, and they are related to the organizing and administering of a school library. 3 semester hours credit. (S 68, 69, 70).

LI 445 Cataloguing and Classification: Introduction G

This course includes cataloguing, classification, and processing of library materials as they are related to the school library. 3 semester hours credit. (S 68, 69, 70; SS 68, 69, 70).

LI 450 The School Library, a survey UG

This course is designed for the classroom teacher. Emphasis is placed on the use of the school library as a resource center. Principles, practices, new trends and materials as well as services for the classroom and teacher are discussed. 3 semester hours credit. (F 67, 68, 69; S 68, 69, 70; SS 68, 69, 70).

LI 451 Storytelling UG

The theory and practice of the art of storytelling. Emphasis on storytelling as a technique in cultivating appreciation of literature in children from kindergarten through grade 8. 3 semester hours credit. (F 67, 68, 69).

LI 462 School Library Legislation G

This course will cover Federal, State, and Local School legislation as it applies to school libraries. (F 67, 68, 69; SS 68, 69, 70).

LI 463 History of the printed book (1400-present day) G

This course will include the printing process and its development; publication and the book trade; discussion and custodianship of rare materials and rare book collections. (S 68, 69, 70; SS 68, 69, 70).

LI 464 Use of non-printed materials in the library G

This course will emphasize the organization and administration of audio-visual materials; audio-visual media are considered in terms of their possible library usefulness; analysis and evaluation of alternative plans for meeting specific needs in the use of these media will be studied and problem-oriented. (S 68, 69, 70; SS 68, 69, 70).

LI 466 Automation in the Library G

This course will acquaint the student with the various facets of data processing in general, and how data processing applies to libraries in particular. Areas to be discussed will include: system analysis, cost evaluation, history of the machines, punched card equipment, the computer and its components, machine coding, and a brief examination of computer programming. The above will be accomplished by lectures, discussions, audio-visual materials and visits to libraries and concerns using the various types of equipment. No prior knowledge of machines or higher mathematics is required. (F 67, 68, 69; SS 68, 69, 70).

DIVISION OF THE SOCIAL SCIENCES

Dr. Jordan Dominic Fiore, Director

The Division of Social Sciences is comprised
of the Departments of Behavioral Sciences,
Economics, and History and Political Science.

DEPARTMENT OF BEHAVIORAL SCIENCES

, Chairman

Professors: Iva Viola Lutz, Joseph Graessle Moore.

Associate Professor: Elizabeth Hollis.

Assistant Professors: Maude Clay Little Green, James Rudolph Scroggs.

Instructors: Louis Schippers, Abraham Vazhayil Thomas.

Visiting Lecturers: Charles William Gaughan, Philip Olmer.

Psychology

PY 222 Psychology of Learning UG

Emphasis will be placed on the theoretical aspects of psychological principles relating to the learning process. Theories of learning will be examined in relation to the learning situation and the teacher. Prerequisite: PY 200 (General Psychology U). 3 semester hours credit. (Every Term).

PY 227 Psychology of Exceptional Children UG

Emphasis will be on identification and understanding of the growth and development of exceptional children. Special techniques considered appropriate to the needs of such children will be treated. Emphasis will also be placed on the contribution the classroom teacher can make to the education and welfare of the mentally, emotionally, and physically handicapped child as well as the academically talented. Prerequisite: PY 200 (General Psychology U). 3 semester hours credit. (F 67, 69; S 69; SS 68, 70).

PY 228 Sub-Normal Psychology UG

The etiological and psychological factors involved in mental retardation and in other deviations affecting the intellectual and behavioristic development of children will be stressed. The education and training as well as educational and occupational potential will receive equal consideration. Prerequisite: PY 200 (General Psychology U). 3 semester hours credit. (S 68, 70; SS 69; F 68).

PY 229 Abnormal Psychology UG

A systematic study of behavior pathology with special reference to

the psychopathology of physical illness, neuroses, psychosis, personality disorders, addiction, and acute and chronic brain disorders. Emphasis will also be placed upon etiology, symptomology, prognosis and prevention. Prerequisite: PY 200 (General Psychology U). 3 semester hours credit. (SS 68; F 69).

Sociology

SO 303 *The Family* UG

This course will focus on a comparative study of family structure in various societies. Theories of family life will be explored. Special emphasis will be given to the modern American family -- its functions, problems, and trends. Prerequisite: SO 280 (An Introduction to Sociological Analysis U). 3 semester hours credit. (S 68).

SO 411 *Types of Asocial Personalities I* UG

This course is intended for the mature undergraduate or graduate student. It uses the clinical method of instruction, having available, live case material. Topics covered include the development of asocial personalities, especially the alcoholic, drug addict, antisocial retarded, and sexually deviated. Prerequisite: SO 280 (An Introduction to Sociological Analysis U). 3 semester hours credit. (F 67).

SO 412 *Types of Asocial Personalities II* UG

The intent and method is the same as in SO 411, Asocial Personalities I. The varieties of psychoses, assaultive epilepsies, and organic brain damages are considered. Current methods of detection and treatment are outlined. Prerequisite: (SO 411 Types of Asocial Personalities I UG). 3 semester hours credit. (S 68).

SO 413 *Personal and Social Disorganization I* UG

A two semester course considering theories and research studies in psychology, criminology, and psychiatry as they apply toward an understanding of individual and social disorder. Prerequisite: SO 280 (An Introduction to Sociological Analysis U). 3 semester hours credit. (F 67).

SO 414 *Personal and Social Disorganization II* UG

A two semester course considering theories and research studies in psychology, criminology, and psychiatry as they apply toward an understanding of individual and social disorder. SO 413 (Personal and Social Disorganization I UG). 3 semester hours credit. (S 68).

DEPARTMENT OF ECONOMICS

Associate Professor Daniel Joseph Noonan, Chairman

Assistant Professor: Douglas Lee Reed

EC 412 Comparative Economic Systems UG

This course will include an analysis of the central economic problems which nations face in organizing economic activity, and a comparison of theories and institutions of capitalism and liberal socialism. Attention is given to the elements of strength and weakness found in the economic systems of various countries. 3 semester hours credit. (S 69).

EC 413 Current Economic Problems UG

Selected topics of current importance to the economy will be discussed. Reading will cover the contemporary economists and their recent economic proposals. 3 semester hours credit. (SS 68, 69, 70).

EC 422 The Economy of Soviet Russia UG

Economic development of the Soviet Economy since 1917 is reviewed. Emphasis is placed on comparing the structure of their economy to that of the United States in regard to industry, agriculture, finance, and economic growth. Attention is given to their techniques of central planning. 3 semester hours credit. (S 70).

EC 432 Principles of Investment UG

An introduction to the mechanics of the stock market is presented. Various investment media are analyzed in regard to their desirability for individual investment portfolios. Some attention is also paid to the investment policies of selected financial institutions. 3 semester hours credit. (S 68).

DEPARTMENT OF HISTORY

Professor Jordan Dominic Fiore, Chairman

Commonwealth Professor: Annabelle McConnell Melville.

Professors: Ralph Samuel Bates, Jane Herrick, Stephanie Olga Husek,

Associate Professor: William Roswell Cole, Jr.

Assistant Professors: Gerald Joseph Doiron, Donald Lundeen Keay, Mary Noel, Maurice Rotstein, Benjamin Arthur Spence.

Instructors: Guy Chandler Clifford, Donald Martin Jacobs, Arthur Carlisle Oien.

HI 271 Political Science UG

This course provides a consideration of the definitions, theoretical foundations, and historical evolution of the principles of politics. The fundamental concepts in political science are examined: state, politics, law, and a general analysis of the place of government in modern society. 3 semester hours credit. (F 67, 68; SS 69).

HI 272 American Government: The Federal System UG

The Constitution of the United States is studied in detail as the basis of the Federal System. Topics of study include the development of the democratic process in America, the organization, power, procedures, function, services, and finances of the United States government. 3 semester hours credit. (S 68; SS 68, 69, 70).

HI 315 Nineteenth Century Europe UG

This course is primarily concerned with the political, social, and intellectual development in the principal countries of Europe from the rise of Napoleon to the end of the century. 3 semester hours credit. (F 67, 69).

HI 316 Twentieth Century Europe UG

This course is concerned with the causes of World War I, the course of the war and its aftermath. Political and social development and economic and ideological trends between the wars will be studied. World War II and post-war international relations will be covered. 3 semester hours credit. (S 68, 70).

HI 317 British Political History Since 1603 UG

This course concerns itself with the political development of England and the British empire from the accession of the Stuarts to the present day. Chronologically parallel to the survey of American history, the course stresses those factors which show the relationship of American-British development of modern times. Although primarily concerned with political factors, this survey does not exclude economic and social factors, particularly when the history of ideas is at issue. 3 semester hours credit. (F 68).

HI 318 British Empire and Commonwealth UG

The development of British imperial policy and colonial problems from the eighteenth century to the present will be covered. Emphasis will be placed upon British-Indian relations, British imperialism in Africa, and the development and aims of the commonwealth as an institution. 3 semester hours credit. (S 69).

HI 333 Latin America: The Colonial Period UG

This course is concerned with the development of Spanish and Portuguese civilization in Latin America in the period between the discovery of America and the successful revolts against Spain early in the nineteenth century. 3 semester hours credit. (F 68).

HI 334 Latin America: The National Period UG

This course studies the Latin American countries from the time that they achieved independence to the present. Prerequisite: HI 333 (Latin America: The Colonial Period UG). 3 semester hours credit. (S 69).

HI 343 Ancient World to 336 B.C. UG

A study of prehistoric times, the early civilizations, and Greece from the Bronze Age to the death of Alexander the Great will be offered. 3 semester hours credit. (F 67, 69).

HI 344 Roman History UG

This course covers the history of Rome from ancient times to the reign of Justinian. Emphasis will be placed on the expansion of Rome from city to empire; the Hellenistic East; imperial administration and law; the origin and spread of Christianity; the decline of the Empire and the raids of the barbarians. 3 semester hours credit. (S 68, 70).

HI 353 Historiography UG

This course is concerned with the development of historical writing; the interpretation of history as illustrated by major historians; the evaluation of historical writings through professional journals and the method of the book review. Membership in the course is limited to fifteen. Students are admitted with the consent of the Departmental Chairman and the Instructor. Students who complete this course are expected to elect HI 354 (Study and Writing of History UG). 3 semester hours credit. (F 67, 69).

HI 354 Study and Writing of History UG

This course is concerned with the development of the techniques of historical research and the preparation of papers which require these techniques. Varieties, analysis, and evaluation of source material will be stressed. Prerequisite: HI 353 (Historiography UG) or its equivalent. Students are admitted with the consent of the Departmental Chairman and the Instructor. 3 semester hours credit. (S 68, 70).

HI 371 The Middle East to 1453 UG

This course will consider the rise and spread of Islam, the development of the Muslim state, the Crusades, the rise of Byzantium and the appearance of the Ottoman Turks, and the fall of Constantinople. Presupposes a course in European history. 3 semester hours credit. (F 68; SS 70).

HI 372 The Middle East Since 1453 UG

This course considers the Ottoman Empire and its relations with Europe; the Eastern Question; the emergence of various national movements; World War I and the mandates, and nationalism in the present Middle East. Prerequisite HI 371 (The Middle East to 1453 UG). 3 semester hours credit. (S 69).

HI 413 Contemporary Affairs UG

Current sociological, economic, political, military, and scientific events are studied in publications and by means of television and radio broadcasts. The course attempts also an evaluation of the impact of science on contemporary society. 3 semester hours credit. (F 67; SS 68, 70).

HI 415 Modern Russia To 1917 UG

Political, social and economic factors in the history of Russia from the sixteenth century to the Revolution will be considered. 3 semester hours credit. (F 68).

HI 416 History of the U.S.S.R. UG

The political, social, intellectual, and diplomatic development of Russia will be considered. Completion of HI 415 (Modern Russia To 1917 UG) and a survey in European history is recommended. 3 semester hours credit. (S 69).

HI 418 Modern European Imperialism UG

This course considers the motives, methods, and results of imperialism in the nineteenth and twentieth centuries. The partition of Africa and the penetration of Asia will be considered as contracting phases in the expansion of Europe. 3 semester hours credit. (S 68, 70).

HI 421 History of Massachusetts UG

In this course the English background of the Pilgrims and Puritans, the Plymouth Colony and Massachusetts Bay settlements, Puritanism and the Massachusetts theocracy, Massachusetts in the Provincial

Period, and the American Revolution will be studied. In addition to a consideration of political history, Massachusetts is studied in the national period in terms of constitutional development, population shifts, industrial growth, the effects of immigration, and the economic changes of the twentieth century. The organization of the state government and the constitution are also studied. Much use will be made of primary source materials in developing the course. 3 semester hours credit. (SS 68, 70).

HI 423 Social and Intellectual History of the United States to 1870 UG

This course will consider the economic, social and cultural development of the American people to the period shortly after the close of the Civil War. The importance of the agricultural society, the development of a distinctly American character, and the spread of democracy will be studied. The life of the people rather than political events will be stressed. Lectures will be supplemented by slides, tapes, and recordings. A survey course in U.S. history would be helpful but it is not a prerequisite. 3 semester hours credit. (F 67, 69; SS 70).

HI 424 Social and Intellectual History of the United States Since 1870 UG

This course traces the transition of American society from an agrarian rural base to an industrial and urban life. The triumph of a machine and scientific society with its implications in the economic, social, and intellectual life of the people will be considered. 3 semester hours credit. (S 68, 70).

HI 430 Europe in the Middle Ages UG

The period covered is from the fall of Rome to the Renaissance of the fifteenth and sixteenth centuries. Topics included are the German invasion, the rise of Christianity, the expansion of Mohammedanism, the development of the Byzantine state, the rise of nations, the conflict between church and state, and the cultural development of medieval Europe. 3 semester hours credit. (SS 68).

HI 433 American Parties and Politics UG

This course covers the history of the rise of political parties in America. Other topics included are pressure groups, public opinion testing the political functions of governmental administration units, nomination methods, the role of parties in international relations and foreign policy. 3 semester hours credit. (S 69).

HI 451A Seminar in American History and Historiography UG

This course is designed primarily for senior history majors who contemplate doing graduate work in the field. The student will be

introduced to the standard source materials for each major period in United States history, and to the various interpretations of approaches to historical problems, and will be encouraged to do some independent research in assigned areas. Admission is with the consent of the Departmental Chairman. 3 semester hours credit. (SS 68; S 69, 70).

HI 461A Far Eastern History

This course deals primarily with the history of China and Japan during the last century. Some consideration is also given to the problems of the Philippines, Indonesia, Southeast Asia, India, and Australia. 3 semester hours credit. (F 68; SS 69, 70).

HI 471A International Relations

Following a consideration of the basic factors in international relations, the development of the western state system, and the principles of balance of power, nationalism, and imperialism, the course covers the establishment of international organization in modern times and the post-war regional organizations. Each student makes a study of the contemporary international problems of a country or region. 3 semester hours credit. (S 69, 70).

HI 473 Comparative Government UG

The contemporary governments and politics of Great Britain and the major European powers will be examined. 3 semester hours credit. (F 68; S 70).

HI 481 United States Foreign Relations To 1898 UG

This course will trace the history of the foreign relations of the United States from the American Revolution to the end of the Spanish-American War. Successful completion of a course in United States history is recommended. 3 semester hours credit. (F 68).

HI 482 United States Foreign Relations Since 1898 UG

This course considers the background of the Spanish-American War, imperialism, the Open Door policy in Asia, Latin-American relations, the background and the results of World War I and World War II, and the diplomacy of the Cold War. 3 semester hours credit. (S 69).

HI 483 United States History: Progressive Era UG

This course traces the rise of the Progressive movement in American history to the early 1920's as reflected in politics, government, and the social and intellectual life of the era. 3 semester hours credit. (F 67, 69).

HI 484 Recent American History UG

The development of modern America through the isolationism and boom of the 1920's, the Great Depression, the New Deal, World War II, and the role of the United States in world affairs will be considered. 3 semester hours credit. (S 68, 70); (SS 68).

HI 485 United States History: The Civil War UG

The period of the American Civil War and Reconstruction is studied topically. Among the items to be considered are the background and causes of the war, the military and naval aspects, Civil War music, art, and literature, diplomacy of the Civil War, the home front in the war, the plans for reconstruction, and military reconstruction. Lectures will be supplemented by slides, motion pictures, and recordings. The completion of a course in American history before taking this course is recommended. 3 semester hours credit. (S 69).

HI 486 French Revolution UG

The background of the Revolution, the ancient regime, the causes, the events, and the results of the French Revolution will be studied. 3 semester hours credit. (F 68).

HI 487 The American Revolution 1763-1787 UG

The topics to be considered in this course are the background and causes of the American Revolution, the military, social, political and diplomatic aspects of the Revolution, the government under the Articles of Confederation and the problems engendered by the attainment of political independence. 3 semester hours credit. (SS 69).

HI 488 U.S. History: The Colonial Period 1607-1763 UG

The following topics are covered: the settlement and growth of the English colonies in America; England's colonial policies: economic and institutional development in the provincial period; the wars with the Indians; the rivalry with the French in America. 3 semester hours credit. (S 69).

HI 489 U.S. History: The Early National Period UG

The course of United States history from the establishment of the republic to the election of Andrew Jackson will be studied. 3 semester hours credit. (F 68, 69).

HI 490 Jacksonian Democracy and the Coming of the Civil War UG

The election of Andrew Jackson and the "rise of the common man," the Whig-democrat rivalry, the Texas question, Manifest Destiny,

the rise of abolitionism, the events leading to the outbreak of the Civil War. 3 semester hours credit. (F 67, 68).

HI 491 English History to 1603 UG

The course of English history from the Roman time to the accession of the Stuart dynasty will be studied. 3 semester hours credit. (S 69).

HI 492 Modern France

The history of France from the rise of Napoleon Bonaparte to the end of World War II will be considered in this course. 3 semester hours credit. (S 69).

HI 493 Modern German History

The course of German history from the reign of Frederick the Great to the end of World War II will be considered. 3 semester hours credit. (SS 68; S 69).

HI 494 United States History 1865-1900 UG

Beginning with the Reconstruction period this course traces the economic, political, and diplomatic history to the end of the nineteenth century. 3 semester hours credit. (S 68).

HI 501 Seminar in Historical Methodology G

The basic methods of historical research and historical writings and the proper use of primary and secondary sources, bibliography, documentations, and annotation will be studied. Varieties, analysis and evaluation of source materials and construction of narrative will be considered. 3 semester hours credit. (F 68, 69).
